It goes beyond the internal firm strategies of micromarketing and the four Ps to take a broader perspective focused on the interconnectedness of markets, marketing and society. In a globalized society concerned with social and environmental sustainability, this book encourages students to think critically about the opportunities and limitations of marketing as well as its positive and potentially negative effects. Through the presentation of key research findings and actual company cases, Peterson engages students with questions such as: How do firms use sustainability concepts to navigate their firms in global business today?
