**Riding the Energy Transition** Reda Cherif,Fuad Hasanov,Aditya Pande,2017-05-22 Recent technological developments and past technology transitions suggest that the world could be on the verge of a profound shift in transportation technology The return of the electric car and its adoption like that of the motor vehicle in place of horses in early 20th century could cut oil consumption substantially in the coming decades Our analysis suggests that oil as the main fuel for transportation could have a much shorter life span left than commonly assumed In the fast adoption scenario oil prices could converge to the level of coal prices about 15 per barrel in 2015 prices by the early 2040s In this possible future oil could become the new coal

**Improving Organizational Performance** Richard E. Kopelman,2019-12-06 This book presents the Cube One framework which provides a basis for understanding diagnosing and improving organizational performance It is based on the premise that successful organizations enact practices that satisfy three key constituents the enterprise itself customers and employees This book offers a uniquely empirical approach by examining enterprise customer and employee directed practices Validity evidence is provided by survey research studies of financial metrics and the analysis of cases involving well known organizations such as Google Four Seasons and Mayo Clinic The Cube One framework is equally applicable to organizations in the for profit nonprofit and government sectors After reading this book students and scholars as well as organizational practitioners in the fields of organizational behavior and management will find a practical approach to improving organizational performance **Vanity Fair** ,2015

**Foreign Direct Investment in Latin America and the Caribbean 2018** United Nations,2019-01-30 This publication sets out and analyses the main foreign direct investment FDI trends in the countries of Latin America and the Caribbean In 2017 certain trends that had already emerged in the global economic landscape became more established In particular announcements of potential restrictions on trade and pressures to relocate production to developed countries were confirmed At the same time China has taken steps to restrict outflows of foreign direct investment FDI in order to align these flows with its strategic plan Adding to these factors is the expansion of digital technologies whose international expansion requires smaller investments in tangible assets Firms in these areas are heavily concentrated in the United States and China which reduces the need for cross border mergers and acquisitions
