Good Meal Prep Ideas For Beginners and Dummies Barbara Dawson, 2020-08-18 Meal prepping is meal planning a meal or recipe then portioning it out to ready meals for later. If you've ever kept leftovers from dinner to take with you for lunch the next day, you've prepared a mini meal. Though meal prepping refers to preparing 3-7 days worth of food at a time, think of it like keeping your lunches for the week all once instead of keeping your lunch hours running. You can use this same technique for breakfast, lunch, dinner, and snacks. Meal prepping prevents waste and reduces time spent cooking outside your plan, and it's budget-friendly. When keeping your meal plan day, the question is, can you eat healthy meals without having to do it every day? Meal prep is not for everyone. It is a great way to save time and money, but it's not for everyone. With meal prepping, you get to eat the same thing for a few days, so if you don't like leftovers or get bored with meal prepping, it's not for you. If having control over what you eat is a priority, meal prepping is not for you. It's great for maximizing your time and budget, but it's not for everyone. Meal prep is great for those who want to eat healthy, save time, and reduce waste. It's not for everyone, but it's a great way to eat healthy and save time.

If one is meal prepping with highly perishable items such as leafy greens, one may want to consider a mid-week meal prep routine.
