The Routledge Handbook of Migration and Language Suresh Canagarajah, 2017-02-03 Winner of AAAL Book Award 2020 Shortlisted for the BAAL Book Prize 2018 The Routledge Handbook of Migration and Language is the first comprehensive survey of this area exploring language and human mobility in today's globalised world. This key reference brings together a range of interdisciplinary and multidisciplinary perspectives drawing on subjects such as migration studies, geography, philosophy, sociology and anthropology. Featuring over 30 chapters written by leading experts from around the world, this book examines how basic constructs such as community, place, language, diversity, identity, nation, state and social stratification are being retheorized in the context of human mobility. Analyses the impact of the mobility turn on language use, including the parallel multilingual turn and translanguaging. Discusses the migration of skilled and unskilled workers, different forms of displacement and new superdiverse and diaspora communities. Explores new research orientations and methodologies such as mobile and participatory research, multi-sited ethnography and the mixing of research methods. Investigates the place of language in citizenship, educational policies, employment and social services. The Routledge Handbook of Migration and Language is essential reading for those with an interest in migration studies, language policy, sociolinguistic research and development studies.

*Migrant Communication Enterprises* Maria Sabaté i Dalmau, 2014-08-04 This unique critical sociolinguistic ethnography explores alternative migrant-regulated institutions of resistance and subversive communication technology, the locutorios or ethnic call shops. These migrant-owned businesses act as a window into their multimodal and hybrid linguistic and communicative practices and into their own linguistic hierarchies and non-mainstream sociolinguistic orders. Here, socially displaced but technologically empowered transnational migrant populations actively find subversive ways to access information and communication technologies. As such, they mobilise their own resources to successfully inhabit Catalonia at the margins of powerful institutions. The book also focuses on the internal social organisation dynamics as well as on the simultaneous fight against and re-production of practices and processes of social difference and social inequality among migrants themselves.

**Exploring (Im)mobilities** Anna De Fina, Gerardo Mazzaferro, 2021-11-23 The impact of mobility and superdiversity in recent sociolinguistic research is well established, yet very few studies deal with issues related to immobility. The chapters in this book focus on the sociolinguistic investigation of the dynamics between mobility and immobility as experienced by migrants, asylum seekers and members of minority or exploited groups. Central to the book is an exploration of how mobilities are affected by and in turn affect power relations and of the kinds of resources used by people to deal with im mobility processes. The book brings to light a new critical sociolinguistic imagination that is responsive to 21st century processes of im mobilities as socially discursively and emotionally constructed and negotiated.
