Migration Development And Transnationalization:

Migration, Development, and Transnationalization Nina Glick Schiller, Thomas Faist, 2010-11-01 The relationship between migration and development is becoming an important field of study yet the fundamentals analytical tools conceptual framework political stance are not being called into question or dialogue This volume provides a valuable alternative perspective to the current literature as the contributors explore the contradictory discourses about migration and the role these discourses play in perpetuating inequality and a global regime of militarized surveillance The assumptions surrounding the asymmetrical transfers of resources that accompany migration are deeply skewed and continue to reflect the interests of the most powerful states and the institutions that serve their interests Those who seek to address the morass of development failure vitriolic attacks on immigrants or sanguine views about migrant agency are challenged by this volume to put aside their methodological nationalism and pursue alternative pathways out of the quagmire of poverty violence and fear that is enveloping the globe

The Migration-Development Nexus Thomas Faist, Margit Fauser, Peter Kivisto, 2011-04-28 This book examines current policy discussions around the migration development nexus and subjects them to rigorous conceptual and empirical criticism through a transnational lens placing the current re discovery of migrants as agents of development nexus into theoretical and historical perspective

Transnational Migration and Human Security Thanh-Dam Truong, Des Gasper, 2011-06-07 The volume places the migration development security nexus in the field of transnational studies Rather than treating these three categories as self evident the essays excavate aspects of power and privilege built into their governing frameworks and conflicting rationales apparent in practices of control Bringing together diverse experiences and case studies the volume highlights the problematic nature of maintaining distinct and disconnected frameworks of governance It argues for a new approach that demonstrates the significance and usefulness of comparative ethics in conceptualising migration from a human centered and gendered perspective in order to address the multi faceted and multi dimensional nature and meanings of security

Transnational Migration-Development Nexus Mulugeta Bezabih Mekonnen, 2018 With a tenfold increase in remittance flows over the last 25 years the diaspora s role in the development efforts of the global South has gained broader interest Besides financial remittances flows of skills and social remittances have gained attention particularly the relevance of diaspora associations as drivers of development This book explores the engagement of Ethiopian diaspora associations in Germany for their home country s development It investigates the policies of the Ethiopian and Germany governments and the opportunities the policies generate for diaspora engagement efforts

Transnational Migration Thomas Faist, Margit Fauser, Eveline Reisenauer, 2013-04-03 Increasing interconnections between nation states across borders have rendered the transnational a key tool for understanding our world It has made particularly strong contributions to immigration studies and holds great promise for deepening insights into international migration This is the first book to provide an accessible yet rigorous overview of transnational migration as experienced by family and kinship

groups networks of entrepreneurs diasporas and immigrant associations As well as defining the core concept it explores the implications of transnational migration for immigrant integration and its relationship to assimilation By examining its political economic social and cultural dimensions the authors capture the distinctive features of the new immigrant communities that have reshaped the ethno cultural mix of receiving nations including the US and Western Europe Importantly the book also examines the effects of transnationality on sending communities viewing migrants as agents of political and economic development This systematic and critical overview of transnational migration perfectly balances theoretical discussion with relevant examples and cases making it an ideal book for upper level students covering immigration and transnational relations on sociology political science and globalization courses

Migration-Development Nexus , *The Migration-development Nexus Evidence and Policy Options* Ninna Nyberg Sørensen,2002 A synthesis of current knowledge of migration development dynamics including an assessment of the intended and unintended consequences of development and humanitarian policy interventions Section 1 examines whether recent developments in the sphere of international migration provide evidence of a crisis as well as the connections between migration globalisation and the changing nature of conflict Section 2 summarizes current thinking on the main issues at stake Section 3 examines available evidence on the relations between migration and development Section 4 discusses the consequent challenges to the aid community including the current debates about coherence and selectivity in aid and relief The final section elaborates on the four conclusions of *Migration and Social Development* Nicola Piper,2009 **The Migration-development Nexus** Ninna Nyberg Sørensen,Nicholas Van Hear,United Nations,2002 Includes statistics

Willen, 2007-12-05 Transnational Migration to Israel in Global Comparative Context explores both how and why the recent influx of approximately 200 000 non Jewish migrants from dozens of countries across the globe has led state officials to declare in definitive terms that Israel is not an immigration country despite its unwavering commitment to welcoming unlimited numbers of homeward bound Jewish immigrants As this innovative volume illustrates the arrival of these economically motivated migrants about half of whom are defined by the state as legal and half as illegal has dramatically transformed the local labor economy of Israel Palestine Moreover the presence of labor migrants along with smaller groups of asylum seekers and victims of trafficking in women has also generated a wide array of complicated legal policy related cultural and ideological questions and dilemmas for the Israeli state local municipalities and civil society Taking both the Palestinian Israeli conflict and Israel's newfound embeddedness in globalizing labor markets as backdrop this multidisciplinary collection investigates the causes as well as the consequences of these new waves of transnational migration to Israel both in comparison to other world regions and in terms of three interrelated levels of analysis first the micro level of migrants everyday experience second the meso level of state and institutional policies and practices and finally the macro level of global political economic trends and processes Bringing together a dynamic array of pioneering senior researchers along with more junior scholars the volume is distinctive not only in its incisive comparisons between Israel and other destination countries but also in its multifaceted analysis of how the Israeli migration regime has shaped constrained and on occasion been challenged by the arrival of these largely unanticipated migrants Among the themes analyzed are the relationship between transnational migration processes and the simmering Israeli **Transnational Networks and Migration from Herat to Iran** Elca Stigter, 2005
