Digital Trademarks and Brands Rajeev Sachdev,2025-10-28 Trademark disputes are a consistent feature of the digital legal landscape appearing in connection with a range of successive technologies and platforms This book presents a new adapted model for digital trademarks and trade practices providing recommendations for the Uniform Domain Name Dispute Resolution Policy UDRP and extending a like process to platform trademark policies and complaint procedures including e commerce marketplace search advertising social media mobile applications and Metaverse platforms The proposed model addresses and greatly reduces legal uncertainties and the harm caused by problems for digital trademarks in such key areas as the following use and place of use of marks bad faith and abuse confusion unfair acts trade practices or competition terms policies and disclaimers jurisdiction territory and justification The adapted model is informed by pertinent theories and concepts select aspects of EU and U S and other legal frameworks and existing policies Ultimately a uniform policy is recommended for each of the five platform types in line with an adapted version of the UDRP based on recommendations through the model It is applied in a way that provides a comprehensive workable solution fostering legal certainty Actual text for the proposed adapted UDRP as well as the uniform policies recommended for each type of platform is provided with guidance for implementation The book provides recommendations that can greatly enhance the resolution of trademark disputes of various kinds and on various platforms in a more certain cost effective and timely manner Given that the complex global environment of digital trademarks raises new issues not adequately addressed by legal frameworks this book will be of inestimable value to digital platforms e commerce search advertising social media mobile app Metaverse etc website operators platform and website lawyers various stakeholders in the UDRP arbitrators panellists online dispute resolution providers libraries academics and researchers It will also be useful to digital businesses domain name holders sellers listers advertisers content providers digital consumers trademark holders digital trademark users and others

Defending Assessment Security in a Digital World Phillip Dawson,2020-10-26 Defending Assessment Security in a

Digital World explores the phenomenon of e cheating and identifies ways to bolster assessment to ensure that it is secured against threats posed by technology Taking a multi disciplinary approach the book develops the concept of assessment security through research from cybersecurity game studies artificial intelligence and surveillance studies Throughout there is a rigorous examination of the ways people cheat in different contexts and the effectiveness of different approaches at stopping cheating This evidence informs the development of standards and metrics for assessment security and ways that assessment design can help address e cheating Its new concept of assessment security both complements and challenges traditional notions of academic integrity By focusing on proactive principles based approaches the book equips educators technologists and policymakers to address both current e cheating as well as future threats **Market-Oriented**

Disinformation Research Carlos Diaz Ruiz,2025-03-25 Market Oriented Disinformation Research explores the spread of false or misleading information online through the lens of marketing theory and consumer research It examines how the business models of digital platforms and advertising technology firms AdTech generate digital markets that incentivize the circulation of harmful content for profit Rather than viewing disinformation and misinformation as accidental byproducts the book proposes that they thrive in the current markets designed for digital advertising and influencer marketing Readers will learn how the amplification of disinformation can be linked to social media s business model Examples include how social media algorithms promote addictive content how fake news sites use ad fraud to lure in advertising revenue and how some content creators rely on clickbait ragebait bots and conspiracy theories to boost their engagement metrics The book is a must read for scholars in journalism media studies and political communication as well as policymakers interested in the democratic governance of social media platforms In addition it calls for digital marketing advertising and brand management professionals to take responsibility for their ad spending by advocating for greater oversight over AdTech intermediaries to prevent unethical actors from monetizing the harmful content that polarizes society and undermines democratic institutions
