Responsible and Sustainable Operations Christopher S. Tang, 2024-07-17 As public awareness of social and environmental issues grew more consumers began to support firms committed to developing and operating environmentally sustainable and socially responsible supply chains. Consumers, investors, and regulators began demanding transparency and accountability, pushing companies to address the environmental footprint of their products and operations. The book addresses essential questions such as how a firm shifts its focus from being profit focused to being triple bottom line driven and how a firm develops its supply chain with a conscience. Written by practice leaders and leading scholars, it sheds light on different paths a firm can take to embrace its role as a sustainability champion, paving the way for a future where profit and the planet coexist. The book is intended as a tribute to Professor Hau Lee's seminal contributions, elevating the triple bottom line to the forefront of the Operations Management OM research agenda. It stimulates practitioners and researchers to engage in deeper and broader discussions about ways to strike a better balance among profit, people, and the planet.

China-Focused Cases CEIBS Case Center, 2025-03-22 This book showcases a selection of award-winning cases from the Global Contest for the Best China-focused Cases. The contests held between 2018 and 2022 recognized 63 exceptional cases, 13 of which are in this publication. Each of the 13 cases has a unique focus. Some investigate how to capture value through new technologies and innovations or examine the intricate relationships between strategies, business models, and financial performance. Examples include Freshhippo, KFC China, Winner Technology, Geek and Alibaba vs JD.com. Others analyze Chinese companies' challenges when entering international markets and their strategic responses. Midea and SHEIN. Some delve into leadership, entrepreneurial management, family business succession, negotiation, and conflict management. EtonHouse, Antigal, Qiangda Chilli, and Dispute over Year-end Bonuses. Two cases discuss how social enterprises can better balance their social purposes with financial sustainability and how companies can integrate social and business innovation. Daddy Lab and AstraZeneca. These cases originate from Chinese and international business schools, highlighting global interest in China's business and management dynamics. Echoing the Chinese proverb 'A single spark can start a prairie fire,' we firmly believe that with collective efforts, more faculty members will recognize the value of the case method and the extensive opportunities of China-themed cases in global management education. We are committed to collaborating with them to meet the growing demand for diverse cases with global perspectives.
