## **Airpods Tour Dates Near Me:**

**Serendipity** Kris Bryant, 2022-09-13 Music runs through Annie Foster's veins. A jingle writer by day and hostess of Coffee Chords, an open mic night at her best friend's coffee shack by night, Annie is doing exactly what she loves. Hitting the big time was never her dream. She has enough followers online to know her music matters. If it's the right combination of success and happiness, why does she feel empty inside? Bristol Baines is top of the pop charts, internet famous, and so lonely she could cry. She was tossed into the business at fourteen, and any other kind of life wasn't in the cards. Living the dream with everything at her fingertips really means a life of disguises, secrecy, and failed relationships. Success has been a big disappointment, and she's ready for a fresh start, even if that means walking away from fame. Serendipity brings Annie and Bristol together, and their undeniable attraction keeps them close, but will their different paths drive them apart? Walkabout Gertrude Lok, 2020-09-15 Travelling in a van without a plan for six months, who doesn't dream of that? Still, there are very few people who actually do it. Maybe you have to be so incredibly through with your life that you just can't think of a better plan. Gertrude Lok left for Canada, bought a converted van with a bed, and a genny, drove from one coast to the other, and kept a diary. Not just any travel journal or a collection of witty columns, but a less-than-ordinary self-help book that can be an inspiration to many of you to seek out your own adventure and reclaim your life. 380 pages, 78 chapters, 10 photos, 14 maps, 15,000 kilometers, 65 locations, countless new friends in 6 months. **What If It's You?** Jilly Gagnon, 2025-05-13 Everyone wonders about the one that got away, and thanks to an alternate reality tech project, one woman will get the chance to actually find out. When Laurel Everett finds a ring in her longtime boyfriend Ollie's sock drawer, she should be thrilled, so why is she left wondering what if? Specifically, what if she'd taken up her work crush Drew on his offer of a date just after she and Ollie got together? Thanks to her job at tech giant Pixel, she might have a way to answer that question through the AltR project, which promises users a glimpse of alternate realities. Or it will, once the quantum computers it relies on get more powerful. When the program actually works, and Laurel wakes up five years into her life with Drew, she's fascinated, then increasingly horrified, as she continues to slip between that world and her real life seemingly at random. As she moves back and forth between the two worlds, Laurel realizes choosing the right life might not be as simple as deciding between two men and the different visions of happiness they offer. And if she doesn't find a way to untangle herself from the quantum mess she's unleashed, she might wind up stuck in the wrong life, or worse, deleted entirely, like a faulty line of code.
