Retargeting gives advertisers the ability to stay in front of those people to bring them back and close the deal. For that reason retargeting has emerged as a must have marketing channel yet there is a lack of content that explains how the technology actually works and best practices for using it. Even marketing managers at large sophisticated brands and agencies don't have a strong grasp of this evolving channel and there are few good neutral sources on the topic. Meanwhile retargeting is the cornerstone of any holistic digital advertising strategy since it improves the results of every other channel if implemented correctly. Unfortunately most marketers are only utilizing the most rudimentary retargeting tactics and barely scratch the surface of its potential. Explains how to stay in front of potential customers and convince them to come back and close the deal.
