**Mining Social Media** Lam Thuy Vo,2019-11-25 BuzzFeed News Senior Reporter Lam Thuy Vo explains how to mine process and analyze data from the social web in meaningful ways with the Python programming language Did fake Twitter accounts help sway a presidential election What can Facebook and Reddit archives tell us about human behavior In Mining Social Media senior BuzzFeed reporter Lam Thuy Vo shows you how to use Python and key data analysis tools to find the stories buried in social media Whether you're a professional journalist an academic researcher or a citizen investigator you'll learn how to use technical tools to collect and analyze data from social media sources to build compelling data driven stories Learn how to Write Python scripts and use APIs to gather data from the social web Download data archives and dig through them for insights Inspect HTML downloaded from websites for useful content Format aggregate sort and filter your collected data using Google Sheets Create data visualizations to illustrate your discoveries Perform advanced data analysis using Python Jupyter Notebooks and the pandas library Apply what you've learned to research topics on your own Social media is filled with thousands of hidden stories just waiting to be told Learn to use the data sleuthing tools that professionals use to write your own data driven stories

[Social Networks - The Modern-Day Family](#) Vanessa Kirch,2021-03-13 Social networks have created a plethora of problems regarding privacy and the protection of personal data The use of social networks has become a key concern of legal scholars policy makers and the operators as well as users of those social networks This pathbreaking book highlights the importance of privacy in the context of today's new electronic communication technologies as it presents conflicting claims to protect national and international security the freedom of the Internet and economic considerations Using the New Haven School of Jurisprudence's intellectual framework the author presents the applicable law on privacy and social media in international and comparative perspective focusing on the United States the European Union and its General Data Protection Regulation of 2018 as well as Germany the United Kingdom and Latin America The book appraises the law in place discusses alternatives and presents recommendations in pursuit of a public order of human dignity

**The Unaccountable State of Surveillance** Clive Norris,Paul de Hert,Xavier L'Hoiry,antonella Galetta,2017-01-24 This book examines the ability of citizens across ten European countries to exercise their democratic rights to access their personal data It presents a socio legal research project with the researchers acting as citizens or data subjects and using ethnographic data collection methods The research presented here evidences a myriad of strategies and discourses employed by a range of public and private sector organizations as they obstruct and restrict citizens attempts to exercise their informational rights The book also provides an up to date legal analysis of legal frameworks across Europe concerning access rights and makes several policy recommendations in the area of informational rights It provides a unique and unparalleled study of the law in action which uncovered the obstacles that citizens encounter if they try to find out what personal data public and private sector organisations collect and store about them how they process it and with whom they share it These

are simple questions to ask and the right to do so is enshrined in law but getting answers to these questions was met by a raft of strategies which effectively denied citizens their rights The book documents in rich ethnographic detail the manner in which these discourses of denial played out in the ten countries involved and explores in depth the implications for policy and regulatory reform

**Enhancing Access to and Sharing of Data Reconciling Risks and Benefits for Data Re-use**

**across Societies** OECD,2019-11-26 This report examines the opportunities of enhancing access to and sharing of data EASD in the context of the growing importance of artificial intelligence and the Internet of Things It discusses how EASD can maximise the social and economic value of data re use and how the related risks and challenges can be addressed It highlights the trade offs complementarities and possible unintended consequences of policy action and inaction It also provides examples of EASD approaches and policy initiatives in OECD countries and partner economies
