Indian doctor and a Chinese activist in exile In this propulsive illuminating work Madhumita Murgia AI editor for the  
Financial Times shows how automated systems are reshaping lives all over the world What does it mean to be human in a  
world that is rapidly changing thanks to the development of artificial intelligence of automated decision making that both  
draws on and influences our behaviour Through the voices of ordinary people in places far removed from the cosy enclave of  
Silicon Valley Code Dependent explores the impact of a set of powerful flawed and often exploitative technologies on  
individuals communities and our wider society Murgia exposes how AI can strip away our collective and individual sense of  
agency and shatter our illusion of free will The ways in which algorithms and their effects are governed over the coming  
years will profoundly impact us all Yet we cannot decide what preferences and morals we want to encode in these entities or  
what controls we may want to impose on them And thus we are collectively relinquishing our moral authority to machines  
Murgia not only sheds light on this chilling phenomenon but also charts a path of resistance AI is already changing what it  
means to be human in ways large and small In this compelling work Murgia reveals what could happen if we fail to reclaim
