We, the Data Wendy H. Wong, 2023-10-10 A rallying call for extending human rights beyond our physical selves and why we need to reboot rights in our data intensive world Winner of the 2024 Balsillie Prize for Public Policy Shortlisted 2024 Lionel Gelber Prize Our data intensive world is here to stay but does that come at the cost of our humanity in terms of autonomy community dignity and equality In *We the Data* Wendy H Wong argues that we cannot allow that to happen Exploring the pervasiveness of data collection and tracking Wong reminds us that we are all stakeholders in this digital world who are currently being left out of the most pressing conversations around technology ethics and policy This book clarifies the nature of datafication and calls for an extension of human rights to recognize how data complicate what it means to safeguard and encourage human potential As we go about our lives we are co creating data through what we do We must embrace that these data are a part of who we are Wong explains even as current policies do not yet reflect the extent to which human experiences have changed This means we are more than mere subjects or sources of data by products that can be harvested and used by technology companies and governments By exploring data rights facial recognition technology our posthumous rights and our need for a right to data literacy Wong has crafted a compelling case for engaging as stakeholders to hold data collectors accountable Just as the Universal Declaration of Human Rights laid the global groundwork for human rights *We the Data* gives us a foundation upon which we claim human rights in the age of data

Sinn, Andreas Heusler, 2022-02-21 *German Jews and Migration to the United States 1933-1945* is a collection of first person accounts many previously unpublished that document the flight and exile of German Jews from Nazi Germany to the USA The authors of the letters and memoirs included in this collection share two important characteristics They all had close ties to Munich the Bavarian capital and they all emigrated to the USA though sometimes via detours and or after stays of varying lengths in other places of refuge Selected to represent a wide range of exile

experiences these testimonies are carefully edited extensively annotated and accompanied by biographical introductions to make them accessible to readers especially those who are new to the subject These autobiographical sources reveal the often traumatic experiences and consequences of forced migration displacement resettlement and new beginnings In addition this book demonstrates that migration is not only a process by which groups and individuals relocate from one place to another but also a dynamic of transmigration affected by migrant networks and the complex relationships between national policies and the agency of migrants

USA Today, 1995 *The home security company "Ring". Entry in the market of western Europe* Eric Carstensen, 2022-02-09 Seminar paper from the year 2020 in the subject Business economics Offline Marketing and Online Marketing grade 3 AFUM Akademie f r Unternehmensmanagement GmbH language English abstract This coursework will take a closer look at the company Ring Ring was founded in 2012 by Jamie Siminoff The company manufactures security technology and continues to expand more and more worldwide The prices of the products are low and it is suitable for every household In order to compete even more in the global market this paper will show in which countries the company will be distributed next The focus is on the western European market where four countries are selected in which Ring is expanding its market First the company Ring is described in more detail including which products are sold how much the company is worth and whether it has already helped against burglaries The next step is to look at which countries in Western Europe should start selling security products taking into account the crime rate and the rate of burglaries and thefts After that potential companies are considered who can sell Ring s security products in order to make the highest possible profit and enter the market on a large scale For this purpose the largest possible companies and supermarkets are looked at so that as many customers as possible can buy the products Finally a short conclusion will be given on how Ring can proceed to enter the four countries as quickly and precisely as possible in order to spread more and more in Western Europe

Andrew Guthrie Ferguson,2026-03-17 Interrogates how digital self surveillance can be turned against us by police
prosecutors and political whims For consumers living in a digitally connected world smart technologies have built an
inescapable trap of digital self surveillance Smart cars smart homes smart watches and smart medical devices track our most
private activities and intimate patterns While these devices allow users to receive personal insights by monitoring their every
move that data can be accessed by police and prosecutors looking to find incriminating clues Digital technology exposes
everyone everywhere all at once and we have few laws to regulate it In Your Data Will Be Used Against You Andrew Guthrie
Ferguson warns us of how the rise of sensor driven technology social media monitoring and artificial intelligence can be
weaponized against democratic values and personal freedoms At the same time that data will solve crimes radically
transforming how criminal cases are prosecuted Ferguson explores how this proliferation of private data in combination with
public surveillance networks promises new ways to solve previously unsolvable crimes but also leaves us vulnerable to
governmental overreach and abuse He argues for legal interventions that address the threat of digital self surveillance and
provides concrete suggestions about how legislators judges and communities should respond As consumers citizens and
potential subjects of surveillance the questions in this book must be confronted now before the trap of surveillance captures
us completely Providing a stark warning of the dangers of digital self surveillance Your Data Will be Used Against You is a

year of teaching Jocelyn Turner spent over one fifth of each week administering mandatory tests and quizzes She spent the
remaining time preparing students to take those specific exams regardless of the background knowledge and preparedness
of individual students While she was testing she could not teach Teachers were expected to present the same Common Core
based grade specific material to all their students at the same time whether Jake was reading at a first grade level or Taylor

at a ninth grade level It was a rare and lucky child who fit the profile of the year's onslaught of tests Since No Child Left Behind US schools have been burying students in tests and then drawing often misguided conclusions when sometimes the only conclusion anyone ought to draw is that student X obviously spent hours staring at a set of questions he or she did not understand and maybe could not even read We have been told that US education is in crisis Ms Turner agrees In Fighting the White Knight she argues that government mandates created and are now perpetuating this crisis depriving children of remedial learning instruction time and personal attention Fighting the White Knight also looks at the 1.6 trillion student debt crisis a consequence of today's single minded college bound pipeline vocabulary deficits left to fester due to narrowly targeted curricula and the sneaky gutting of elective vocational technical and gifted education Ms Turner concludes by advocating for changes she believes can rescue American education guiding children back to the safe inspirational learning experiences of a more student focused time **Saveur** ,2001
