*Verzeichnis lieferbarer Kaufmedien* ,2000      **World Development Report 2021** World Bank,2021-07-02 The unprecedented growth of data and its ubiquity in our daily lives signal that the digital revolution is transforming the world. But much of the value of data remains untapped waiting to be realized. Data collected for one particular purpose has the potential to generate economic value in applications far beyond those originally anticipated. However many barriers stand in the way of the beneficial reuse of data ranging from misaligned incentives and incompatible data systems to a fundamental lack of trust. The World Development Report 2021 Data for Better Lives will explore the tremendous potential of the changing data landscape to improve the lives of poor people but also to open backdoors that can harm individuals businesses and societies. The first part of the report assesses how better use and reuse of data can enhance the design of public policies programs and service delivery as well as improve market efficiency and job creation through private sector growth. The second part of the report focuses on issues of governance law and policy that can help realize data's potential benefits while safeguarding against harmful outcomes. By examining these issues the report aims to show how data can be leveraged to benefit the lives of poor people.

**The Regensburg Article 5 on Justification** Anthony N. S. Lane,2019 The question of the justification of sinners is one of the most complex regions of Christian theology. The Regensburg article on justification proposed a solution that it was hoped would be acceptable to both sides Protestant and Catholic. In 1541 at the Regensburg Colloquy three leading Protestant theologians Melanchthon Bucer and Pistorius and three leading Catholic theologians Eck Gropper and Pflug debated with the aim of producing a commonly agreed statement of belief. The colloquy as a whole eventually failed but it began with a statement on justification by faith agreed by all the parties. Article 5 leading to an initial burst of optimism. There were two contrasting reactions to Article 5. Some like Calvin maintained that it contained the substance of true doctrine others like Luther called it an inconsistent patchwork. These two rival assessments have persisted over the centuries. The aim of this book is to decide between them. It does so by viewing the article in the light of the publications of the key participants and observers as well as by comparing it with the Tridentine Catholic Decree on Justification. Anthony Lane puts the Regensburg article under the microscope offering both a wide ranging study of the article's history and a line by line analysis of its content presenting the original Latin text together with an English translation and running commentary.
