## **Memes Today Guide Returns:**

**The Return of Science** Philip Pomper, David Gary Shaw, 2002 In this collection of essays historians discuss the applications of evolutionary theory to cultural social economic and political phenomena William H McNeill presents a magisterial statement about the convergence of the sciences toward an evolutionary worldview Several contributors offer support for this thesis Anthropologist Donald Brown and archaeologist Albert Naccache bring together the realms of biology and culture in examinations of evolved human features and modes of evolution Demographer Noel Bonneuil and neuroscientist Alonso Pena apply mathematics to historical evolutionary processes such as the decision making of human agents and cultural diffusion

**Returning Home to Our Bodies** Abigail Rose Clarke, 2024-01-09 For readers of Adrienne Maree Brown, Staci K. Haines, and Robin Wall Kimmerer A body-based healing model that interrogates what we've been wrongly taught about hierarchies of nature and the body and pushes back against the white supremacy, colonialism, patriarchy, and capitalism embedded in modern embodiment practices. Pushing back against a consumerist, pleasure-centric somatics industry that privileges product over process, Abigail Rose Clarke reminds us that truly meaningful embodiment practice nurtures our relationships among self, nature, and community. Combining the rigor of the scientific method with the poetry and lyricism of movement and somatic studies, Clarke's somatic learning system, The Embodied Life Method, centers the body as a guide through today's most seemingly intractable social and environmental challenges, reclaiming the body as a source of liberatory comfort in times of great uncertainty and yet possibility. With tools and practices to help us better understand and dismantle the many ways our bodies are weaponized to serve domination systems, topics covered include Harnessing the vitality of curiosity and experimentation, Using nature as a guide to possibility, Embracing the necessity of difference, Exposing the lie of universal isolation, Dismantling the fallacy of hierarchy, Uncovering the truth of endless capacity, Awe as a driving force for transformation. With methods honed over decades of inquiry, teaching, and practice, *Returning Home to Our Bodies* provides a lucid body-based model of healing and restoration, one that imagines a world beyond systems of domination, marginalization, and isolation to nurture embodied whole community liberation.

He went to Africa hoping to find the Noble Savage living in Utopia. Two years later he found he had recorded his transition from adolescence to manhood and in doing so he provided the broadest and deepest account to date of what it really feels like to live with a tribe.
