

UBER

VS

LYFT

WHICH IS CHEAPER (AND BY HOW MUCH) IN EVERY STATE?

Ride-hailing apps have revolutionized the way we get around, and according to Statista, only two such companies make up the American market in 2022: **Uber** and **Lyft**. But which of these ride-share titans offers the better rate?

We calculated the average fare for a trip in every U.S. state and discovered that **Uber is cheaper** than Lyft in the **majority (33)** of states. **Wisconsin** sees the biggest difference: **Uber is \$4.71 cheaper** than Lyft.

U Uber L Lyft \$ Fare Difference

DISCLAIMER: For each state's three most populated cities, we calculated total fares for four six-mile journeys using Uber and Lyft under two scenarios. The average of these fares was used to see which app was cheaper to use.

Craig A. Leisy, 2019-05-07 **Transportation Network Companies and Taxis** The Case of Seattle is a modern economic case history and thorough analysis of the devastating impact of the transportation network company (TNC) industry (Uber and Lyft) on the taxicab industry in Seattle, Washington, beginning in 2014. The events that transpired and lessons learned are applicable to most large cities in North America, Europe, and Australia. As the regulator of the taxicab and TNC industries in Seattle during this period, the author offers a unique insider perspective. The book also provides internal operating statistics on the TNC industry, which are available here for the first time. Despite the spectacular growth of the TNC industry, growth rates have steadily declined and may fall to zero by 2019 or 2020, while the taxicab industry appears to have begun a modest recovery. This book offers a thorough explanation of how and why this decline has happened. It explains the taxicab industry, economic deregulation, competitive market failure, market disruption, price elasticity of demand, and other concepts. There is also a wealth of data, computations, and analysis for the specialized reader. This book considers the past, present, and future of the taxicab and TNC industries in Seattle. It is recommended for both the general reader and industry professionals.
