Developing and Implementing a Public Health and Criminological Approach to Tackling

Sexual Abuse Kieran McCartan, Anne Eason, Sarah Senker, Nick Addis, Cody Porter, 2025-08-19 This edited collection draws together and contextualises research on the Epidemiological Criminology (EpiCrim) approaches to sexual abuse carried out by the University of West England (UWE) Bristol. EpiCrim sees crime and offending behaviour including sexual abuse as a public health issue and advocates that to prevent first time or repeat offending behaviour we have to work in a bespoke way across a number of populations: individual, interpersonal, community and societal. The book introduces the area of EpiCrim and how it works to address sexual abuse before examining the UWE based research on the prevention, treatment and community integration of people impacted by sexual abuse. The book discusses policy, practice, theory and research in this area with the authors reviewing, critiquing, synthesising as well as building upon previous current research, theory and policy.
