Willem B. Drees

Naturalism And Religion:

Naturalism and Religion Kai Nielsen, 2001 Nielsen philosophy U of Calgary presents a defense of naturalism as the most reasonable way to view humans place in the world His naturalism is an atheistic and humanistic philosophy but it is not a scientific or value free one He articulates a naturalistic explanation of the functions of religion and argues that truly understanding religion necessitates disbelief He argues that a consistent atheism does not rob life of its significance or make social and political commitment arbitrary After explaining the theory he explains arguments for and against the theory as propounded by various other philosophers most notably the work of Wittgenstein which he believes to be the most serious philosophical challenge to secular naturalism c Book News Inc Between Naturalism and Religion Jürgen Habermas, 2014-11-06 Two countervailing trends mark the intellectual tenor of our age the spread of naturalistic worldviews and religious orthodoxies Advances in biogenetics brain research and robotics are clearing the way for the penetration of an objective scientific self understanding of persons into everyday life For philosophy this trend is associated with the challenge of scientific naturalism At the same time we are witnessing an unexpected revitalization of religious traditions and the politicization of religious communities across the world From a philosophical perspective this revival of religious energies poses the challenge of a fundamentalist critique of the principles underlying the modern West's postmetaphysical understanding of itself The tension between naturalism and religion is the central theme of this major new book by Jürgen Habermas On the one hand he argues for an appropriate naturalistic understanding of cultural evolution that does justice to the normative character of the human mind On the other hand he calls for an appropriate interpretation of the secularizing effects of a process of social and cultural rationalization increasingly denounced by the champions of religious orthodoxies as a historical development peculiar to the West These reflections on the enduring importance of religion and the limits of secularism under conditions of postmetaphysical reason set the scene for an extended treatment the political significance of religious tolerance and for a fresh contribution to current debates on cosmopolitanism and a constitution for international society Naturalism and Religion Rudolf Otto, 2021-08-09 Naturalism and Religion Graham Oppy, 2018-05-20 This book guides readers through an investigation of religion from a naturalistic perspective and explores the very meaning of the term religious naturalism Oppy considers several widely disputed claims that there cannot be naturalistic religion that there is nothing in science that poses any problems for naturalism that there is nothing in religion that poses any serious challenges to naturalism and that there is a very strong case for thinking that naturalism defeats religion **Naturalism and Religion** A Contemporary Philosophical Investigation is an ideal introduction for undergraduate and postgraduate students of religious studies and philosophy who want to gain an understanding of the key themes and claims of naturalism from a religious and philosophical perspective **Naturalism and Religion** Dr. Rudolf Otto, 2015-06-16 Excerpt from **Naturalism and Religion** It is a remarkable and in some respects a disquieting fact that whilst rival ecclesiastical parties are engaged in a furious and

embittered debate as to the precise shade of religious instruction to be given in public elementary schools the thinking classes in modern Europe are becoming more and more stirred by the really vital question whether there is room in the educated mind for a religious conception of the world at all The slow silent uninterrupted advance of research of all kinds into nature life and history has imperceptibly but irrevocably revolutionised our traditional outlook upon the world and one of the supreme questions before the contemporary mind is the probable issue of the great struggle now taking place between the religious and the non religious conception of human life and destiny When we look at the development of this great fundamental conflict we feel that disputes between rival ecclesiastical systems are of trifling moment the real task at the present time before every form of religion is the task of vindicating itself before a hostile view of life and things It is the consciousness of this fact which has led to the translation and publication in English of Professor Otto s volume About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Naturalism and Religion Rudolf Otto,1992 **Naturalism and Religion** Rudolf Otto,2020-10-27 Rudolf Otto 1869 1937 was an eminent German Lutheran theologian philosopher and comparative religionist who is regarded as one of the most influential scholars of religion in the early 20th century He is best known for his theory of numinous a profound emotional experience he argued was at the heart of the world s religions Otto eventually came to conceive his work as part of a science of religion which was divided into the philosophy of religion the history of religion and the psychology of religion His first book was *Naturalism and Religion* 1904 which divides the world ontologically into the mental and the physical a position reflecting Cartesian dualism He argues that consciousness cannot be explained in terms of physical or neural processes further arguing that all knowledge of the physical world is mediated by personal experience In his preface to this English translation of 1907 the Rev W D Morrison notes that Dr Otto possesses the rare merit of combining a high philosophic discipline with an accurate and comprehensive knowledge of the science of organic nature allowing him to comment authoritatively on the debate concerning the religious and the non religious conception of human life and destiny

Naturalism, Theism and the Cognitive Study of Religion Aku Visala,2016-04-22 This

book provides a critical philosophical analysis of the claim that contemporary cognitive approaches to religion undermine theistic beliefs. Recent scientific work into the evolution and cognition of religion has been driven by and interpreted in terms of a certain kind of philosophical and methodological naturalism. The book argues that such naturalism is not necessary for the cognitive study of religion and develops an alternative philosophical and methodological framework. This alternative framework opens the cognitive study of religion to theological and philosophical considerations and clarifies its relationship to other approaches to religious phenomena. This unique contribution to discussions regarding the philosophical and theological implications of the cognitive study of religion summarizes the so far fragmentary discussion, exposes its underlying assumptions, and develops a novel framework for further discussion.

Naturalism and Protectionism in the Study of Religions Juraj Franek, 2020. How should we study religion? Must we be religious ourselves to truly understand it? Do we study religion to advance our knowledge or should the study of religions help to reintroduce the sacred into our increasingly secularized world? Juraj Franek argues that the study of religion has long been split into two competing paradigms: reductive naturalist and non-reductive protectionist. While the naturalistic approach seems to run the risk of explaining religious phenomena away, the protectionist approach appears to risk falling short of the methodological standards of modern science. Franek uses primary source material from Greek and Latin sources to show that both competing paradigms are traceable to Presocratic philosophy and early Christian literature. He presents the idea that naturalists are distant heirs not only of the French Enlightenment but also of the Ionian one. Likewise, he argues that protectionists owe much of their arguments and strategies not only to Luther and the Reformation but to the earliest Christian literature. This book analyses the conflict between reductive and non-reductive approach in the modern study of religions and positions the Cognitive Science of Religion against a background of previous theories, ancient and modern, to demonstrate its importance for the revindication of the naturalist paradigm.

The Philosophy of History James Stroud, 2013-12-03. What is philosophy? What is history? Is much of what we have been taught false concerning these two? Author James Stroud not only breaks down the often neglected field of philosophy of history but shows why much of what we have taken for granted in the subject of Origins belongs just as much in the field of history as it does in science. Supporting an open philosophy of history versus the current closed philosophy in place, Stroud systematically shows why the paradigm of Naturalism is most likely false and should therefore not influence the way the historian is forced to interpret the data. Mr Stroud has chosen a good topic of discussion in the Philosophy of History because it is not a common one. The masquerading of naturalism as science has driven most of the secular study of historical events and has falsely described religion as quite inferior in value and falsely claim that science is opposed to miracles found in religions. Science cannot oppose what it does not study, and Mr Stroud has done an excellent job in surveying this very concept in his work surrounding the very philosophy of what we call history today.

Dr Subodh Pandit MD **Religion and Scientific Naturalism** David Ray Griffin, 2000-05-18. Articulates a metaphysical

position capable of rendering both science and religious experience simultaneously and mutually intelligible *Naturalism and Beyond* Niels Henrik Gregersen, Mikael Stenmark, 2016 This book offers a critical analysis of the varieties of contemporary naturalism from scientific naturalism to religious naturalism What are the claims of naturalism apart from its denial of the supernatural What are the distinctive modes of thought within contemporary religious naturalism Some argue for a science based worldview others for a cosmic view of reality that includes human engagement and religious commitment with or without God talk The book shows how an appeal to what is beyond empirically validated facts resurfaces within most varieties of naturalism But it also points to the fact that immanentist frameworks are widely presupposed among contemporary theologians who do not describe themselves as naturalists Rival positions and conflicts of interpretations emerge as to the question of transcendence and the Beyond and different philosophical theologies are at work from the strict denial of theism to ground of being theisms to classic and alternative views of the divine Naturalism, Theism and the Cognitive Study of Religion Dr Aku Visala, 2013-06-28 This book provides a critical philosophical analysis of the claim that contemporary cognitive approaches to religion undermine theistic beliefs Recent scientific work into the evolution and cognition of religion has been driven by and interpreted in terms of a certain kind of philosophical and methodological naturalism The book argues that such naturalism is not necessary for the cognitive study of religion and develops an alternative philosophical and methodological framework This alternative framework opens the cognitive study of religion to theological and philosophical considerations and clarifies its relationship to other approaches to religious phenomena This unique contribution to discussions regarding the philosophical and theological implications of the cognitive study of religion summarizes the so far fragmentary discussion exposes its underlying assumptions and develops a novel framework for further discussion **The Naturalists and the Supernatural** William M. Shea, 1984 **Religion and Scientific Naturalism** David Ray Griffin, 2000-05-11 Winner of the 2000 Scientific and Medical Network Book Prize In this book David Ray Griffin argues that the perceived conflict between science and religion is based upon a double mistake the assumption that religion requires supernaturalism and that scientific naturalism requires atheism and materialism **Religion, Science, and Naturalism** Willem B. Drees, 1996-01-01 This book considers the consequences of the natural sciences physics biology neurosciences for our view of the world Willem Drees argues that religion and morality are to be understood as rooted in our evolutionary past and neurophysiological constitution His book takes a more radical naturalist position than most on religion and science But religion is not dismissed religious traditions remain important as bodies of wisdom and vision *Events of Grace* Charley D. Hardwick, 1996-03-29 In the liberal theological tradition dating from Schleiermacher *Events of Grace* first published in 1996 demonstrates that the Christian faith can be fully compatible with a scientific world view Religion and God must be understood valuationally not ontologically which permits an existentialist account of faith entirely in terms of modes of existing Hardwick weds Bultmann's demythologizing programme to Wieman's naturalistic

concept of God as creative transformation Defending a strong doctrine of justification by faith he shows how both God and the knowledge of God can be conceived in terms of events of grace that transform possibilities of existence toward openness to the future Events of Grace gives a complete existential and naturalistic account of sin faith God the knowledge of God Christology and the eschatological symbols that articulate Christian hope in the encounter with suffering and death
