

# Grade 5: NC READY EOG – Math Menu of Activities

Using these EOG review lessons for assessment preparation can serve as a frame for meaningful performance goals as it can help learners to clarify targeted standards; yield evidences of understandings or misunderstandings; and support learning outcomes and benchmarks. The purpose of this resource is to inform teaching and improve learning so students can achieve the highest academic standards possible in mathematics.

Not all of the content in a given grade is emphasized equally in the standards. Some clusters require greater emphasis than others based on the depth of the ideas, the time it takes to master, and/or their importance to future mathematics. Some things having greater emphasis is not to say that anything in the standards can safely be neglected in instruction. The major works for the grade level are listed in the table below.

Fifth Grade	
Major Clusters	Supporting/Additional Clusters
<b>Number and Operations in Base Ten</b> <ul style="list-style-type: none"><li>Understand the place-value system.</li><li>Perform operations with multi-digit whole numbers and with decimals to hundredths.</li></ul> <b>Number and Operations—Fractions</b> <ul style="list-style-type: none"><li>Use equivalent fractions as a strategy to add and subtract fractions.</li><li>Apply and extend previous understandings of multiplication and division to multiply and divide fractions.</li></ul> <b>Measurement and Data</b> <ul style="list-style-type: none"><li>Geometric measurement; understand concepts of volume and relate volume to multiplication and/or addition.</li></ul>	<b>Operations and Algebraic Thinking</b> <ul style="list-style-type: none"><li>Write and interpret numerical expressions.</li><li>Analyze patterns and relationships.</li></ul> <b>Measurement and Data</b> <ul style="list-style-type: none"><li>Convert like measurement units within a given measurement system.</li><li>Represent and interpret data.</li></ul> <b>Geometry</b> <ul style="list-style-type: none"><li>Graph points on the coordinate plane to solve real-world and mathematical problems.</li><li>Classify two-dimensional figures into categories based on their properties.</li></ul>

The following outlines the percentages of items in each domain of the NC MATH EOG for the grade level:

**Number and Operations-Fractions**  
47-52%

**Numbers and Operations -Base Ten**

Wake County Public School System, 3014
