## **Nature Course Notes From The Collge De France:**

**Nature** Maurice Merleau-Ponty, 2003 Collected in this text are the written notes of courses on the concept of nature given by Merleau Ponty at the College de France in the 1950s The ideas that animated the philosopher s lectures emerge in an early fluid form in the process of being elaborated negotiated critiqued and reconsidered

**Nature** Maurice Merleau-Ponty, 2003 Collected here are the written traces of courses on the concept of nature given by Maurice Merleau Ponty at the Coll ge de France in the 1950s notes that provide a window on the thinking of one of the most influential philosophers of the twentieth century In two courses distilled by a student and in a third composed of Merleau Ponty s own notes the ideas that animated the philosopher s lectures and that informed his later publications emerge in an early fluid form in the process of being elaborated negotiated critiqued and reconsidered Merleau Ponty s project in these courses is an interrogation of nature a task at the center of his investigation of perception truth and subjectivity The first course a survey of the historical elements in our concept of nature examines first the Cartesian concept of nature and then historical and contemporary responses to Descartes all with an eye toward developing a vision of nature more consistent with the findings of contemporary science In the second course Merleau Ponty takes up the problem of the relation of nature to ontology in general Here the key question is how the animal finds itself in its world Because the human body is ultimately an animal of movements and perceptions humanity is intertwined with animality In the third course Nature and Logos The Human Body Merleau Ponty assesses his previous findings and examines the emergence of the human body at the intersection of nature and Logos This course contemporaneous with the working notes for The Visible and the Invisible allows us to observe the evolution of that work as well as to revisit the research he had begun in Primacy of Perception In these traces a new reading of Descartes a measured appreciation of Schelling an assessment of recent developments in the sciences both physical and biological that leads to the notion of the body as a system of equivalencies and an examination of the phenomenon of life We have a wealth of material that allows us to reconsider Merleau Ponty s thinking and to engage his philosophical project anew Before his death in 1961 Maurice Merleau Ponty was chair in philosophy at the Coll ge de France Robert Vallier is completing his doctoral work on Merleau Ponty and Schelling at DePaul University He has also taught at the Universite de Paris X Nanterre and at the College Internationale de Philosophie

**Merleau-Ponty and Theology** Christopher Ben Simpson, 2013-12-19 The philosophical contributions of French phenomenologist Maurice Merleau Ponty carry great untapped potential for theologians thinking through some of the central affirmations of the Christian faith This exploration is structured against the background of the fundamental interrelation between three bodies in Merleau Ponty s thought and in Christian theology the material as such or nature the corporeal the human body as a living body the corporal and the social body the corporate including language and tradition Merleau Ponty s philosophy offers a finessed and non reductionistic understanding of the relations between these orders of bodies Appropriating Merleau Ponty s thought helps one think

through Christian doctrines of creation theological anthropology Christology ecclesiology and eschatology **First Nature.**

**The Problem of Nature in the Phenomenology of Merleau-Ponty** Alessio Rotundo, 2023-08-28 This book explores a radically integrative phenomenology of nature through the work of Maurice Merleau Ponty By revisiting novel empirical findings in the sciences and advances in scientific methods and concepts Merleau Ponty leads us to rediscover a first nature right at the heart of the subject Alessio Rotundo traces and documents the presence of a double meaning of nature affecting Merleau Ponty s analyses across foundational aspects of human experience sense perception organic development and behavior cognition language and history Physical biological and psychological processes in nature are not merely scientific data they provide the evidence for another more primordial sense of nature *Nature and Logos* William S. Hamrick, Jan Van der Veken, 2012-01-02 This is the first booklength account of how Maurice Merleau Ponty used certain texts by Alfred North Whitehead to develop an ontology based on nature and how he could have used other Whitehead texts that he did not know in order to complete his last ontology This account is enriched by several of Merleau Ponty s unpublished writings not previously available in English by the first detailed treatment of certain works by F W J Schelling in the course of showing how they exerted a substantial influence on both Merleau Ponty and Whitehead and by the first extensive discussion of Merleau Ponty s interest in the Stoics s notion of the twofold logos the logos endiathetos and the logos proforikos This book provides a thorough exploration of the consonance between these two philosophers in their mutual desire to overcome various bifurcations of nature and of nature from spirit that continued to haunt philosophy and science since the 17th century

**Yoga and Phenomenology on Consciousness** Giulia Moiraghi, 2025-08-01 Brings yogic traditions into dialogue with current philosophical and scientific research on consciousness In this book philosopher and yoga practitioner Giulia Moiraghi brings yoga into dialogue with current debates on consciousness in analytic philosophy and cognitive science The book explores embodiment s role in revealing a typically overlooked dimension of consciousness the horizon consciousness Bringing major thinkers in phenomenology together with the classical texts of yogic traditions as well as the author s own firsthand experience the book argues that yoga across all the centuries and in its diversity of practices points toward a common core that should not be left to an archaeological domain of study but should be integrated into ongoing philosophical research on consciousness By helping the reader understand the relevance of key phenomenological concepts to the practice and actualization of yoga the book provides a concise and agile tool for general practitioners in the contemplative field and for scholars in consciousness studies Indian studies philosophy psychology and cognitive science *Cultivating Perception Through Artworks* Helen A. Fielding, 2021-11-30 What are the ethical political and cultural consequences of forgetting how to trust our senses How can artworks help us see sense think and interact in ways that are outside of the systems of convention and order that frame so much of our lives In *Cultivating Perception through Artworks* Helen Fielding challenges us to think alongside and according to artworks cultivating a perception of what is really there and being expressed by them Drawing

from and expanding on the work of philosophers such as Luce Irigaray and Maurice Merleau Ponty Fielding urges us to trust our senses and engage relationally with works of art in the here and now rather than distancing and systematizing them as aesthetic objects Cultivating Perception through Artworks examines examples as diverse as a Rembrandt painting M NourbeSe Philip's poetry and Louise Bourgeois public sculpture to demonstrate how artworks enact ethics politics or culture By engaging with different art forms and discovering the unique way that each opens us to the world in a new and unexpected ways Fielding reveals the importance of our moral political and cultural lives **Merleau-Ponty's Poetic of**

**the World** Galen A. Johnson, Mauro Carbone, Emmanuel de Saint Aubert, 2020-08-04 Merleau Ponty has long been known as one of the most important philosophers of aesthetics yet most discussions of his aesthetics focus on visual art This book corrects that balance by turning to Merleau Ponty's extensive engagement with literature From Proust Merleau Ponty developed his conception of sensible ideas from Claudel his conjoining of birth and knowledge as co naissance from Valéry came implex or the animal of words and the chiasma of two destinies Literature also provokes the questions of expression metaphor and truth and the meaning of a Merleau Pontian poetics The poetic of Merleau Ponty is the book argues a poetic of the flesh a poetic of mystery and a poetic of the visible in its relation to the invisible Ultimately theoretical figures or figuratives that appear at the threshold between philosophy and literature enable the possibility of a new ontology What is at stake is the very meaning of philosophy itself and its mode of expression Normality, Abnormality, and Pathology in

Merleau-Ponty Susan Bredlau, Talia Welsh, 2022-02-01 Maurice Merleau Ponty's work draws our attention to how the body is always our way of having a world and never merely a thing in the world Our conception of the body must take account of our cultures our historically located sciences and our interpersonal relations and cannot reduce the body to a biological given Normality Abnormality and Pathology in Merleau Ponty takes up Merleau Ponty's phenomenology of the body to explore the ideas of normality abnormality and pathology Focusing on the lived experiences of various styles of embodiment the book challenges our usual conceptions of normality and abnormality and shows how seemingly objective scientific research such as the study of pathological symptoms is inadequate to the phenomena it purports to comprehend The book offers new insights into our understandings of health and illness ability and disability and the scientific and cultural practices that both enable and limit our capacity for diverse experiences *Handbook of Whiteheadian Process Thought* Michel
