

New PFB Treatments

PERMANENT NO-SHAVE WAIVERS ARE UNAUTHORIZED

- Pseudofolliculitis Barbae (PFB or razor bumps) is a common hair disorder characterized by a foreign body inflammatory reaction that is caused by ingrown hairs, usually in the face and beard areas, after removal of the hair. It results from entry and penetration of the skin by the tip of the growing curved hair.
- Sailors now have two options for treatment for PFB: Laser Hair Reduction or Medical Treatment with Shaving Modifications.
- Sailors who were previously issued a "permanent no-shave waiver" must undergo reevaluation within six months of the publication date of the revised BUPERSINST 1000.22 (unless sailor is deployed or treatment is unavailable).
- The health care provider will counsel the Sailor on the potential adverse effects of the selected treatment regimen.
- PFB is not considered a physical disability but could be a disqualifying factor for continued naval service, potentially resulting in administrative separation.
