Newman, 2013-08-01 The earliest forms of phlebotomy can be traced all the way back to the ancient Egyptian civilization and ancient Greek and Roman cultures Back in ancient times the removal of blood from the body was less of a science than a way of supposedly ridding the body of evil spirits or illnesses Draining blood in ancient times was considered one way to effectively cure the body of most ills and was often performed using a lancet tool In today's modern times bloodletting is no longer practiced except in rare instances of cases of extremely rare diseases Today's methods of Phlebotomy are considered a science and one must receive a degree or certification in phlebotomy in order to perform blood drawing tasks Today Phlebotomy procedures are only practiced in safe environments such as hospitals doctor's offices and medical clinics THIS TEXT CONTAINS OVER 300 PLUS GENERAL TEST QUESTIONS AND ANSWERS
