*Digital Culture Shock* Katharina Reinecke, 2025-08-05 How culture shapes the design and use of technology and how we can resist the one size fits all approach to technology design Robots that encroach on your personal space baffling emojis a chatbot that gives you an answer that seems terribly rude does any of this sound familiar If so you may know what it feels like to experience a clash of cultures or even culture shock in technology Culture shared values norms and behaviors influences both the design of technology and its use An encounter with new technology can teach us to embrace the unfamiliar but a mismatch between design and user can create misunderstanding and loss of trust and can even become a tool of digital imperialism In Digital Culture Shock computer scientist Katharina Reinecke travels through countries and cultures around the world to show the many fascinating ways that technology design and use can differ Reinecke argues that technology is inherently cultural because developers apply their own knowledge and experiences when creating it And this can make the technology fail in other settings For example robotaxis trained on driver behavior on a California highway are paralyzed when confronted with the more complicated traffic flows of Egypt Western online social networks designed to convey one's individuality violate the need to preserve the image of a family in more group oriented cultures Likewise the visual complexity common in many East Asian websites can be overwhelming to North Americans and European users who tend to prefer simpler designs Making it clear what's at stake Reinecke urges us to resist generalizing our own cultural peccadillos in technology design
