**Financial Development in Latin America and the Caribbean** Augusto de la Torre, Alain Ize, Sergio L.

Schmukler, 2011-11-30 The financial systems of Latin America and the Caribbean LAC have been widely resilient to the global financial crisis which reflects strong progress in both macroeconomic management and prudential oversight. However the current juncture provides a unique tapestry upon which this book examines several key questions and challenges looking forward. Does LAC continue to underperform on some key financial development indicators and if so why? How can LAC's financial systems contribute more effectively to the region's welfare and growth? How can LAC secure the benefits of deepening financial development while avoiding the fault lines that recently burst to the surface in other parts of the world?
