Soares, 1991-08-30 In this volume Eric Soares offers a lively and comprehensive treatment of promotional feats publicity

efforts that generate positive and extensive media exposure and thereby enhance sales. Arguing that promotional feats are one of the most powerful yet underused tools available to the marketing manager, Soares shows how they can have a dramatic impact on consumer behavior if they are developed and executed carefully. The types of feats described and illustrated include advertisements, sales promotions, publicity stunts, sales activities, displays, or unusual product characteristics. The common denominator Soares demonstrates is that each feat must be newsworthy enough to cause media attention, which is then instrumental in affecting consumers' attitudes, intentions, and buying behavior. Numerous examples of successful consumer-based promotion activities are included. The book begins by examining historical feats of publicity and promotion undertaken by military strategists, adventurers, and others. Soares explains how each incident was conceived and carried out and illuminates its applications to business. The bulk of the volume explores business promotional feats and their underlying market strategies. Separate chapters are devoted to media events, product features, outrageous advertisements, promotion gimmicks, and company icons. The final chapter reviews the process of conceptualizing, designing, and implementing a promotional feat. An indispensable resource for marketing and sales promotion managers. *Promotional Feats* will also be essential reading for anyone aspiring to a career in these fields. *Culture, Entertainment and Health Promotion in Africa* Kimani Njogu, 2005. This book brings together multiple voices and positions from Africa. These voices assembled during a 2003 Soap Summit held in Nairobi are powerful and varied and suggest ways in which issues of health could be tackled in an entertaining manner. The summit organized by Population Communications International Africa highlighted the critical role that the arts can play in ensuring better health, especially among the youth. It resulted from the recognition that young people in Africa are faced with a myriad of problems and complications as they struggle to deal with growth and identity formation within a globalising social and economic setup. They are in dire need of information on their own sexuality and how to deal with it and are getting conflicting signals from the mass media as well as their immediate environment. The youth are under intense pressure from their peers to engage in premarital sex, which is in most cases unprotected. The HIV/AIDS epidemic presents frightening challenges, and all health programs should look for ways of dealing with it. Of great concern is the vulnerability of women and girls in Africa due to rising poverty, gender violence, lack of access to youth-friendly reproductive health facilities, and lack of a conducive infrastructure, especially in informal settlements and in the rural areas. The myriad problems presented by the pandemic require a multi-sectoral approach. This book brings together a number of strategies being undertaken in Africa that combine entertainment and education in a positive way. The voices from the Soap Summit are interspersed with those of the Editor to create a dialogue on entertainment education that contributes to the discussion on the way social change might be undertaken. *The Hastings Law Journal*, 2015-04.
