The Prize of Success Jonas Berthod,2024-04-02 In the small world of Swiss graphic design prizes such as the Swiss Design Awards SDA are followed closely The winners works are admired envied and emulated The generous prize money allows designers to launch their careers and focus on lesser paid but critically recognised work Awards thus play the role of bellwethers of the scene However criticisms inevitably arise Speaking in hushed tones designers speculate as to why a colleague won over another Rumours have it that jury members favour their inner circles and exclude competitors Analysing this universe in detail Jonas Berthod retraces the recent history of the SDA and the emergence of a new design culture in Switzerland

Thinking through Graphic Design History Aggie Toppins,2025-01-23 Graphic design has a paradoxical relationship to history While it claims to promote originality and innovation ideas that emphasize the new and unique design practice is deeply embedded in previous ideals Too often design students encounter the past in brief visual impressions which seduce them to imitate form rather than engage with historical contexts Even though it has claimed to be objective and even comprehensive graphic design history has focused largely on individual careers and Eurocentric achievements Yet the past swells with untapped potential Graphic design history can serve the field of today and tomorrow but its narratives require updates History like design is always changing and like design history is driven by present day questions This book shows how students and practicing designers can enrich their work by thinking historically about design With thoughtful analyses stimulating creative prompts inspiring case studies and perspectives from designers all over the world this book challenges our traditional understanding of graphic design history and the very notion of the design canon offering ways to shape socially engaged critical practices
