Murder On The Orient Express Penguin Reader:

Agatha Christie and New Directions in Reading Detective Fiction Alistair Rolls, 2022-06-16 This book brings a new lens to the work of Agatha Christie through a series of close readings which challenge the official solutions by Hercule Poirot and Miss Marple This book's approach interweaves two core ideas first it explores the importance of French critic Pierre Bayard's self-styled detective criticism second it takes detective criticism in a new direction by refocusing on the beginnings of Agatha Christie's novels In this way the book counters the end orientation that has traditionally dominated the reading experience of and critical response to detective fiction by exploring the potential of the beginning to host other interpretations and stories Offering a new way of reading detective fiction this book is a mixture of narratology and detective criticism and deploys it in the form of radical new readings of a number of Christie's most famous works This illuminating text will interest students and scholars of crime and detective fiction literary studies and comparative literature

Reading Programs for Young Adults

Martha Seif Simpson, 1997-07-15 School and public libraries often provide programs and activities for children in preschool through the sixth grade but there is little available to young adults For them libraries become a place for work the place to research an assignment or find a book for a report but the thought of the library as a place for enjoyment is lost So how do librarians recapture the interest of teenagers This just might be the answer Here you will find theme-based units such as Cartoon Cavalcade Log On at the Library Go in Style Cruising the Mall Space Shots Teens on TV and 44 others that are designed for young adults Each includes a display idea suggestions for local sponsorship of prizes a program game to encourage participation 10 theme-related activities curriculum tie-in activities sample questions for use in trivia games or scavenger hunts ideas for activity sheets a bibliography of related works and a list of theme-related films The units are highly flexible allowing any public or school library to adapt them to their particular needs

The Signs of James Bond Daniel Ferreras Savoye, 2013-02-27 This book is an analysis of the most significant elements that compose the Bond formula such as names binary oppositions and narrative patterns It tackles Ian Fleming's novels as well as the 22 films of the Eon Productions series and follows the evolution of certain determining features paradigms from the text to the screen to determine their function within the narration This study reveals how the James Bond universe goes well beyond mere spy adventures to become a genre in itself as well as now a standard cultural reference The book also shows that the underlying ideology of the James Bond narration is not as conservative as it might appear for it promotes ideals of the Enlightenment period such as secularity pragmatism and the common good

The Idea of Education in Golden Age Detective Fiction Roger Dalrymple, Andrew Green, 2024-07-05 This book presents an exploration of how Golden Age detective fiction encounters educational ideas particularly those forged by the transformative educational policymaking of the interwar period Charting the educational policy and provision of the era and referring to

works by Agatha Christie Dorothy L Sayers Edmund Crispin and others this book explores the educational capacity and agency of literary detectives the learning spaces of the genre and the kinds of knowledge that are made available to inquirers both inside and outside the text It is argued that the genre explores a range of contemporaneous propositions on the balance between academic curriculum and practicum length of school life and the value of lifelong learning This book s closing chapter considers the continuing pedagogic value for contemporary classrooms of engaging with the genre as a rich discursive and imaginative space for exploring educational ideas Framing Golden Age detective fiction as a genre profoundly concerned with learning this book will be highly relevant reading for academics postgraduate students and scholars involved in the fields of English language arts twentieth century literature and the theories of learning more broadly Those interested in detective fiction and interdisciplinary literary studies will also find the volume of interest Literature Alan Maley, Alan Duff, 2007-04-26 This revised edition offers a wide variety of interesting and practical ideas for using literature in the language classroom **Bowker's Guide to Characters in Fiction 2007** , 2008-02 **Reading and Mapping Fiction** Sally Bushell, 2020-07-02 Do we map as we read How central to our experience of literature is the way in which we spatialise and visualise a fictional world Reading and Mapping Fiction offers a fresh approach to the interpretation of literary space and place centred upon the emergence of a fictional map alongside the text in the late nineteenth and early twentieth centuries Bringing together a range of new and emerging theories including cognitive mapping and critical cartography Bushell compellingly argues that this activity whatever it is called mapping diagramming visualising spatialising is a vital and intrinsic part of how we experience literature and of what makes it so powerful Drawing on both the theory and history of literature and cartography this richly illustrated study opens up understanding of spatial meaning and interpretation in new ways that are relevant to both more traditional academic scholarship and to newly emerging digital practices **The Armchair Detective** , 1989 **Whitaker's Five-year Cumulative Book List** , 1953 *Writing in a Second Language* Bruce Leeds, 1996 Class and Culture in Crime Fiction Julie H. Kim, 2014-04-17 The crime fiction world of the late 1970s with its increasingly diverse landscape is a natural beginning for this collection of critical studies focusing on the intersections of class culture and crime each nuanced with shades of gender ethnicity race and politics The ten new essays herein raise broad and complicated questions about the role of class and culture in transatlantic crime fiction beyond the Golden Age How is class understood in detective fiction other than as a socioeconomic marker Can we distinguish between major British and American class concerns as they relate to crime How politically informed is popular detective fiction in responding to economic crises in Scotland Ireland England and the United States When issues of race and gender intersect with concerns of class and culture does the crime writer privilege one or another factor Do values and preoccupations of a primarily middle class readership get reflected in popular detective fiction General Catalogue of Printed Books British Museum.
