## **Murder Short And Sweet:**

**Murder Short & Sweet** Paul D. Staudohar, 2008 Homicide is the ultimate crime and unraveling a murder mystery is one of reading's great pleasures. This Anglo American collection of 24 classic mystery and murder stories brings together the best of the genre featuring stories by such celebrated authors as Agatha Christie, A Conan Doyle, Dorothy Sayers, Ruth Rendell, Ellery Queen, Roald Dahl, John Updike, Donald E. Westlake, C. S. Forester, and many others. Some of the stories focus on the intricate plotting that leads to murder while others deal more with the aftermath of the crime. The motives are varied: hate, jealousy, revenge, money, greed, or even the thrill of the act. In Roald Dahl's classic *Lamb to the Slaughter*, a jealous wife kills her unfaithful husband with a leg of lamb and then cooks him up for dinner before the detectives arrive. Readers will revel in all the twists and turns and imaginative and surprising endings.

### **Murder at Cottonwood Creek** Clara

McKenna, 2025-11-25 Far from England and their beloved Morrington Hall, Viscount Lyndy Lyndhurst and his American wife, heiress and equestrian Stella Kendrick, now Lady Lyndhurst, find fossils and murder in Montana. Led by his passion for paleontology, Lyndy's father, Lord Atherly, has traveled all the way to Montana to explore the fossil-rich horse ranch owned by Stella's mother, Katherine, and her second husband, Ned Smith. Urged by Lady Atherly to look after her husband, Stella, and Lyndy follow in his wake. Stella is excited to be reunited with her mother, and Lyndy is eager to experience the real Wild West. Both are equally thrilled to participate in a fossil dig. But when a local man who was guarding the dig site overnight is found the next morning dead in a creek bed, the couple fear his death may not have been an accident, especially when things get wilder still. The paleontologist on the dig has his notebook stolen, several fossil bones disappear, and a second body is found in the research tent. No one is above suspicion: a rival paleontologist, up to some skullduggery, members of their own crew, even Lord Atherly himself. Stella and Lyndy must keep digging to unearth the clues that will expose a killer in their midst before more bones must be buried.

**A Thousand Years of Sweet** Joan Ann Tietz, 2001 The lexical semantic history of sweet and derivatives from its early stages as evidenced in Old English texts until the present day is the subject of this linguistic study. The lexemes are examined in the four semantic fields in which they occur: taste, smell, sound, and finally, metaphorical extension, where they refer to feelings or senses regarded as pleasant. This pilot study of common usage of one simple adjective and its derivatives shows correlations between intralingual and extralingual language development. The extent of the emotive baggage carried by even a simple lexical unit is revealed, as well as the underlying importance of secondary semantic traits. It is an important addition to the field of linguistic variation and development in a social and cultural context or cultural etymology.
