Appendix References Index    **Museums, Equality and Social Justice** Richard Sandell,Eithne Nightingale,2013-05-20 The last two decades have seen concerns for equality diversity social justice and human rights move from the margins of museum thinking and practice to the core The arguments both moral and pragmatic for engaging diverse audiences creating the conditions for more equitable access to museum resources and opening up opportunities for participation now enjoy considerable consensus in many parts of the world A growing number of institutions are concerned to construct new narratives that represent a plurality of lived experiences histories and identities which aim to nurture support for more progressive ethically informed ways of seeing and to actively inform contemporary public debates on often contested rights related issues At the same time it would be misleading to suggest an even and uncontested transition from the museum as an organisation that has been widely understood to marginalise exclude and oppress to one which is wholly inclusive Moreover there are signs that momentum towards making museums more inclusive and equitable is slowing down or in some contexts reversing Museums Equality and Social Justice aims to reflect on and crucially to inform debates in museum research policy and practice at this critical time It brings together new research from academics and practitioners and insights from artists activists and commentators to explore the ways in which museums galleries and heritage organisations are engaging with the fast changing equalities terrain and the shifting politics of identity at global national and local levels and to investigate their potential to contribute to more equitable fair and just societies    **Museums and Design for Creative Lives** Suzanne MacLeod,2020-09-07 Museums and Design for Creative Lives questions what we sacrifice when we allow economic imperatives to shape public museums whilst also considering the implications of these new museum realities It also asks how might we instead design for creative lives Drawing together 28 case studies of museum design spanning 70 years the book explores the spatial and social forms that comprise these successful examples as well as the design methodologies through which they were produced Re activating a well trodden history of progressive museum design and raising awareness of the involvement of the built forms in how we feel think and act MacLeod provides strategies and methods to actively counter the economisation of museums and a call to museum makers to work beyond the economic and advance this deeply human history of museum making Museums and Design for Creative Lives will be of great interest to academics and students in museum studies gallery studies heritage studies arts management communication and architecture and design departments as well as those interested in understanding more about design as a resource in museums The book provides a valuable resource for museum leaders and practitioners    **The Future of Museum and Gallery Design** Suzanne MacLeod,Tricia Austin,Jonathan Hale,Oscar Ho Hing-Kay,2018-06-18 The Future of Museum and Gallery Design explores new research and practice in museum design Placing a specific emphasis on social responsibility in its broadest sense the book emphasises the need for a greater understanding of the impact of museum design in the experiences of visitors in the manifestation of the vision and values of museums and galleries and in the shaping of civic spaces for culture in our shared social world The

chapters included in the book propose a number of innovative approaches to museum design and museum design research Collectively contributors plead for more open and creative ways of making museums and ask that museums recognize design as a resource to be harnessed towards a form of museum making that is culturally located and makes a significant contribution to our personal social environmental and economic sustainability Such an approach demands new ways of conceptualizing museum and gallery design new ways of acknowledging the potential of design and new experimental and research led approaches to the shaping of cultural institutions internationally The Future of Museum and Gallery Design should be of great interest to academics and postgraduate students in the fields of museum studies gallery studies and heritage studies as well as architecture and design who are interested in understanding more about design as a resource in museums It should also be of great interest to museum and design practitioners and museum leaders
