*Musical Children* Carolynn A. Lindeman, 2011 **Children's Home Musical Experiences Across the World** Beatriz Ilari, Susan Young, 2016-09-06 This book offers a fresh and diverse perspective on home musical activities of young children from a variety of countries including Brazil, Denmark, Greece, Israel, Kenya, the Netherlands, Singapore, Spain, South Africa, Taiwan, the UK, and the United States. Narrowing their study to seven-year-olds from middle class families, the articles in this volume argue that home musical experiences provide new and important windows into musical childhoods as they relate to issues of identity, family life, gender, culture, social class, and schooling. Though childhood musical engagement differs considerably, it has direct implications for a better understanding of music education and childhood development. Using a wiki to share data and research across time and space, this volume is a model for collaborative cross-cultural research and is centered on the home as a primary research site for children's musical engagement.
