Navigating World History Historians Create A Global Past:

Navigating World History P. Manning, 2003-05-15 World history has expanded dramatically in recent years primarily as a teaching field and increasingly as a research field. Growing numbers of teachers and Ph Ds in history are required to teach the subject. They must be current on topics from human evolution to industrial development in Song dynasty China to today's disease patterns and then link these disparate topics into a coherent course. Numerous textbooks in print and in preparation summarize the field of world history at an introductory level. But good teaching also requires advanced training for teachers and access to a stream of new research from scholars trained as world historians. In this book Patrick Manning provides the first comprehensive overview of the academic field of world history. He reviews patterns of research and debate and proposes guidelines for study by teachers and by researchers in world history.

[Teaching World History in the Twenty-first Century: A Resource Book](#) Heidi Roupp, 2015-02-12 This practical handbook is designed to help anyone who is preparing to teach a world history course or wants to teach it better. It includes contributions by experienced teachers who are reshaping world history education and features new approaches to the subject as well as classroom tested practices that have markedly improved world history teaching.

[Recent Themes in World History and the History of the West](#) Donald A. Yerxa, 2009 New insights on global histories and Western civilization from leading scholars in the field. Described as the New York Review of Books for history. Historically Speaking has emerged as one of the most distinctive historical publications in recent years, actively seeking out contributions from a pantheon of leading voices in historical discourse from both inside and outside academia. Recent Themes in World History and the History of the West represents some of the best writing on Western civilization and world history in the past five years. This collection of essays and interviews from Historically Speaking gives leading historians approaches to the continually evolving field of world history with a specific emphasis on the relationship of Western civilization to the history of the world. The book also discusses the effect of empire on global history and the many ways empire continues to manifest in the contemporary world. The contributors discuss world history as an intricate story of the connections within the global community rather than a tidy static narrative that attempts to summarize everything in our global past. In this volume the study of world history is presented as a constantly comparative endeavor concerned with the major themes that link and divide humanity.

[Fifty Key Thinkers on History](#) Marnie Hughes-Warrington, 2014-09-04 Fifty Key Thinkers on History is an essential guide to the most influential historians, theorists and philosophers of history. The entries offer comprehensive coverage of the long history of historiography, ranging from ancient China, Greece and Rome through the Middle Ages to the contemporary world. This third edition has been updated throughout and features new entries on Machiavelli, Ranajit Guha, William McNeil and Niall Ferguson. Other thinkers who are introduced include Herodotus, Bede, Ibn Khaldun, E. H. Carr, Fernand Braudel, Eric Hobsbawm, Michel Foucault, Edward Gibbon. Each clear and concise essay offers a brief biographical introduction, a summary and discussion of each thinker's approach to history and how others have

engaged with it a list of their major works and a list of resources for further study **Woodrow Wilson and American Internationalism** Lloyd E. Ambrosius,2017-06-16 This book critiques President Woodrow Wilson's statecraft and diplomacy during World War I notably with respect to religion and race **The Many Faces of Clio** Q. Edward Wang, Franz L.

Fillafer, Georg G. Iggers, 2007 Born in Germany Georg Iggers escaped from Nazism to the United States in his adolescence where he became one of the most distinguished scholars of European intellectual history and the history of historiography. In his lectures delivered all over the world and in his numerous books translated into many languages Georg Iggers has reshaped historiography and indefatigably promoted cross cultural dialogue. This volume reflects the profound impact of his oeuvre. Among the contributors are leading intellectual historians but also younger scholars who explore the various cultural contexts of modern historiography focusing on changes of European and American scholarship as well as non Western historical writing in relation to developments in the West. Addressing these changes from a transnational perspective this well rounded volume offers an excellent introduction to the field which will be of interest to both established historians and graduate students **The Routledge Companion to World Literature and World History** May Hawas, 2018-04-19

The Routledge Companion to World Literature and World History is a comprehensive and engaging volume combining essays from historians and literary academics to create a space for productive cross cultural encounters between the two fields. In addition to the 27 essays the Companion includes general introductions from two of the leading scholars of history and literature David Damrosch and Patrick Manning as well as personal testimonies from artists working in the area and editorials asking provocative questions. The volume includes sections on People with essays looking at World Literature, Intellectual Commerce, Religion, language and war and Indigenous ethnography. Networks and methods examining maps, geography, morality and the crises of world literature. Transformations including essays on race, colonialism and the non-human. Interdisciplinary and groundbreaking this volume brings to light various ways in which scholars of literature and history analyse, assimilate or reveal the intellectual heritage of the past at the same moment as they try consciously to deal with an unending amount of new information and an awareness of global connections and discrepancies. Including work from leading academics in the field as well as newer voices the Companion is ideal for students and scholars alike.

Recent Themes in the History of Africa and the Atlantic World Donald A. Yerxa,2008 Drawn from the articles and forums in the Historical Society's tabloid publication Historically Speaking these pieces explore the relationship of Africa to world history map the current state of the burgeoning field of Atlantic history and debate the accuracy of Olaudah Equiano's seminal narrative The standard approach of historians often compresses the African past into interpretive frameworks that leave Africans without a history of their own A case is made here for an

alternative approach a multicentric world history that gives voice to the various ways Africans experienced the past and an impressive array of Africanist and world historians respond The volume also assesses the state of Atlantic Studies and includes a spirited forum on a provocative thesis that Olaudah Equiano author of the most important account available of the horrific Middle Passage was actually born in South Carolina and not Africa Designed to serve as a companion text for courses in African Atlantic and world history this volume will also appeal to lay readers interested in contemporary approaches to these topics
