basketball care creating a common language and improving communication within the team staff and environment **Why We Root (Vol. 1): Mad Obsessions of a Chicago Sports Fan** Jack M. Silverstein, 2024-02-02 Why We Root Mad Obsessions of a Chicago Sports Fan is a collection of Jack M Silverstein's sportswriting including pieces from 1999 to 2023 that reveal the sports fan mindset and show readers why we root for our teams. This collection of eighty one articles is organized based on a fan's emotional journey from learning the game to knowing the game to emotional heartbreak and eventually to celebrating championships. Included in the book are Silverstein's real time articles on many of the best known Chicago sports events of the early 21st century including the White Sox, Blackhawks and Cubs breaking winning their first championships after massive droughts, the Bears reaching and losing the Super Bowl, the rise and fall of saviors to be Derrick Rose and Jay Cutler, the Chicago Sky winning the 2021 WNBA championship, the Blackhawks famed 17 seconds championship, the Bears agonizing double doink and the Cubs horrific Bartman game retold from multiple perspectives in multiple years including ten years later by pitcher Mark Prior and catcher Paul Bako. Also included are Silverstein's look back at the Bulls-Pistons rivalry of the 1990s, the 1995 Northwestern Wildcats Rose Bowl team and Michael Jordan's flu game [A Soaring Season](#) Aaron Bracy, 2025-03-01 The 2003-04 season was a dream for anyone in the orbit of Saint Joseph's basketball. Being a student on Hawk Hill at the time I lived every second of it and long assumed I knew everything imaginable about that team and that time. Aaron Bracy proved otherwise. A Soaring Season isn't only a joyous echo of those days but it's a deeply reported dive into all the coincidental circumstances required for ordinary people to go extraordinary places. Brendan Quinn, The Athletic In the 2003-04 season Saint Joseph's became the most unlikely and most incredible story in college basketball. The underdog Hawks captivated the entire city of Philadelphia and much of the nation with a unique guard-oriented style and team-first mentality featuring players who were not wanted by power conferences. Big time programs passed over star point guard Jameer Nelson because of his height but Nelson played an oversized sensational game that dwarfed his 5 feet 11 inches height. Nelson's backcourt mate Delonte West was a lightly recruited prospect out of high school but transformed himself into an NBA first round draft pick with a work ethic and competitive drive that never had been seen before or since. On Hawk Hill Outspoken head coach Phil Martelli overlooked for the only job he had ever wanted until he was nearly 41 years old surrounded Nelson and West with a perfect cast of complementary players. Individually none of Nelson and West's teammates would be mentioned as an All American candidate. Put all of the Hawks together however and you had a practically unstoppable force. Not only did the players accept their roles they relished them. And each one's contribution from Nelson and West all the way down to former cheerleader and walk on Robert Hartshorn was crucial to the entire team's success. The Hawks spurred on by a mascot who never stops flapping its wings and a never quit school mantra The Hawk Will Never Die played their games in a gym that wasn't even as modern as many high schools. Not much about the Hawks home felt big time not much that is except their team. It was this low budget mom and pop men's basketball program that overcame

Relations in Professional Sports Robert C. Berry, William B. Gould, Paul D. Staudohar, 1986-02-28 For all the billions of dollars the sports industry generates its labor laws and negotiations are still relatively new and their impact is only beginning to be felt. *Labor Relations in Professional Sports* offers a step by step examination of how these new management player relationships have come about and what they may portend for the future. In an engaging style that is rich in sports history and anecdotes the authors examine the background of the major team sports baseball, football, basketball and hockey and analyze how business and legal considerations have affected each sport's development. They also probe current unresolved issues and predictable future problems such as the relationships of broadcast networks and sports leagues. Surprisingly this book with so formidable a title is not only readable but even difficult to put down. Explanations of complex legal decisions are reduced to brief lucid passages. Extensive footnotes are provided in each chapter for readers who wish greater detail. Choice: a comprehensive treatment of labor relations in sports. Overall the book is a slam dunk success. *Journal of Law and Commerce*

Newsweek, 1997 *Giant Robot*, 2004 *Pro Football Prospectus 2005* Aaron Schatz, 2005 For the over 14 million people who play fantasy football every year for the hardcore fan who wants information beyond sports page recaps for everyone who bets on the NFL and for the smart casual enthusiast looking for entertainment and insight comes the essential preseason annual. With numerous statistical measures that go far beyond standard NFL stats *Pro Football Prospectus* assesses the DVOA (Defense adjusted Value Over Average) of every single skill player and determines how many points better a starting player is over the average bench player. Measures special teams, offers advanced offensive line statistics, analyzes teams' abilities to convert draft picks into quality players and much more. And like its sister publication *Baseball Prospectus* it's written with a knowing dry wit that gets under the skin of America's most popular spectator sport. Compared by *The New York Times Magazine* to Bill James the baseball statistics guru Aaron Schatz is revolutionizing the world of football statistics. In just two years his Web site *FootballOutsiders.com* is by a huge margin the Web's best independent football site, writes Gregg Easterbrook of *NFL.com*. *Salon* calls it a must for anyone interested in going beyond. This guy has more yards so he must be better. Now Schatz and his team of *Football Outsiders* are continuing their groundbreaking work with a comprehensive, authoritative book of sophisticated statistical analysis. It also offers solid predictions: in 2004 the *Outsiders* predicted six of eight division winners including the Steelers' champion season, the fading year of Ahman Green and Jamal Lewis and the breakout of the New York Jets.

Compendium of Professional Basketball Robert Bradley, 1999 **The Business of Sports** Dennis R. Howard, Brad R.
