Maheshwari, Vineeta Mittal, The early schooling years in a child's life are of extreme importance These are the times when he focuses his eyes and mind on everything that is new and appealing His mind is untrained and he has learned only the basics of communication His vocabulary is limited but he is eager to learn Whatever is presented to him he absorbs like a sponge His attention span is short and he requires constant reinforcement What interests him most is things and events around him This is the golden opportunity to inculcate in him a spirit of adventure and inquiry to teach him to ask to reason and to pick up healthy habits With this in mind our publisher decided to bring out a science series for the junior classes **Science Mission** 7 Mukul Sahgal, Series of books for class 3 to 8 provide complete coverage of the NCERT syllabus prescribed by

Central Board of Secondary Education CBSE The main goal that this series aspires to accomplish is to help students understand difficult scientific concepts in a simple manner and in an easy language **Mathematics Activity Manuals Practice Book** Anupal Sagar, A Text book on Maths *Stride Ahead with Science* □ 6 Madhubun, 1 It is designed in accordance with the latest guidelines laid by NCERT for classes 1 to 8 2 Aims to inculcate inquisitiveness and passion for learning 3 The chapters are designed in a manner that leads to comprehensive learning of concepts development of investigative and scientific skills and the ability to probe into problems and find a possible solution 4 The content of the series is supported by alluring illustrations and attractive layout to lend to the visual appeal and also to enhance the learning experience 5 A clear comprehensive list of learning objectives at the beginning of each chapter 6 A Kick off activity at the beginning of each chapter to set the pace for learning 7 Hand on activities presented using the scientific methodology of having a clear aim and materials required along with recording and discussing the task at hand 8 A section on In Real Life at the end of each chapter imparts value education and helps the learners become a better citizen 9 Evaluation tools in the form of test papers and model test papers in classes 1 to 5 and periodic assessments half yearly paper and a yearly paper in classes 6 to 8 **SCIENCE FOR NINTH CLASS PART 3 BIOLOGY** LAKHMIR SINGH, A series of six books for Classes IX and X according to the CBSE syllabus Each class divided into 3 parts Part 1 Physics Part 2 Chemistry Part 3 Biology **Science Mission 8** Mukul Sahgal, Series of books for class 3 to 8 provide complete coverage of the NCERT syllabus prescribed by Central Board of Secondary Education CBSE The main goal that this series aspires to accomplish is to help students understand difficult scientific concepts in a simple manner and in an easy language **CBSE NCERT ICSE IGCSE IMO Mathematics Class VI** Chandan Sengupta, This book has been published with all reasonable efforts taken to make the material error free after the consent of the author No part of this book shall be used reproduced in any manner whatsoever without written permission from the author except in the case of brief quotations embodied in critical articles and reviews 1 Integers 2 Fractions and Decimals 3 Data Handling 4 Simple Equations 5 Lines and Angles 6 Triangles 7 Congruence of Triangles 8 Comparing Quantities 9 Rational Numbers 10 Practical Geometry 11 Perimeter and Area 12 Algebraic Expressions 13 Exponents and Powers 14 Symmetry 15 Visualising Solid Shapes This workbook is designed for students of Class VII having aspiration of preparing for NTSE and IMO Some of the basic content areas assigned in National Curriculum Framework are incorporated in this workbook This book cannot replace any textbook of the referred standard of National Curriculum It will be an added content upon the prescribed ones for developing and strengthening the basic understanding of mathematical concepts that the fellow students want to aspire for It will also confer the regular mathematical practice with which one should move for reducing any specific problems related to the understanding of mathematical concepts Mathematics deals with some fundamental aspects related to time and space We all learn different rules and related operations starting from our elementary stage of schooling Different students take the subject differently as per their interest

and willingness Some students calculate values with adequate speed and some other students do the same with lot of difficulties We also point out the development of fear related to Mathematics in the mind of some of the fellow students We cannot analyse the possible reasons of the development of such fear in the mind of students This development cannot be generalised It is not developed in the minds of all the fellow students Things often become difficult when our fellow ward fail to correlate the linkages of real life problems with that of mathematical ones It is the main reason of the lack of proper orientation in the process of the development of mathematical skills A skilful student can correlate both the aspects of mathematics and real life problems with much efficiency A skilful student of mathematics should be a good observer a perfect planner optimum analyser and abled calculator Some students can take much time in solving any individual mathematical problem that compared to the time taken by the other fellow from the same peer group This book is designed to expose a student to different types of mathematical problems from the allied fields of the curriculum specified for the middle school It is expected that this workbook can equip a student in different ways and enable them to acquire mathematical skills with a long lasting impression in mind It is true that we cannot remember hundreds and thousands of different types of problems related to mathematics We must try to equip ourselves differently for addressing all sorts of numerical and space related problems Daily Practice Problem DPP series of publications deals with facilitation of fellow students and their associates This workbook is suitable for students of class 3 of National Curriculum It can be used by other fellow students of Primary section for improving their mathematical skills It can be used by students who are willing to opt for IMO NTSE and other similar examinations It will also develop the basic understanding related to Mathematical Skills It will enhance the competency set up of those students and equip them differently so as to make them competent for addressing higher challenges Focus is entirely made on the content areas which felt difficult for students under observation
