Only In Canada You Say A Treasury Of Canadian Language:

English, But Not Quite Oriana Palusci, 2010 **Only in Canada You Say** Katherine Barber, 2008 Ask any Canadian about a distinctly Canadian form of English and most will offer an enthusiastic Bob and Doug McKenzie eh in response A passionate few might also bring up the colour vs color debate or our pronunciations of out and about And some may point to the ubiquitous Canadiantoque as evidence of a language that is all our own If this is your idea of Canadian English then it might surprise you that Katherine Barber Editor in Chief of the best selling Canadian Oxford Dictionary and author of the best selling *Six Words You Never Knew Had Something to Do With Pigs* has written a new book filled with nothing but made in Canada vocabulary *Only in Canada You Say* highlights more than 1 200 words and phrases that are unique to our neck of the woods Did you know for example that every time you ask for Gravel at the drug store you are using a word that is unknown anywhere else That those tasty butter tarts your mother used to make don't exist beyond our borders Or that there are three distinctly Canadian sex words And jokes about living in the Great White North aside it is still pretty interesting to discover that there are 17 Canadian words for ice Organized thematically *Only in Canada You Say* covers Canadian English from coast to coast to coast with sections dedicated to the things we love to do where we live how we get around and what we wear The entertaining and informative introductions to each section provide a fresh often eye opening perspective on the reality of Canadian English from Canada's own Word Lady Katherine Barber *Only in Canada You Say* maybe eh is just the beginning of this story **Quill & Quire** , 2008 *Current Projects in Historical Lexicography* John P. Considine, 2010 *Current Projects in Historical Lexicography* brings together seven papers by present and recent editors of historical dictionaries and lexical databases The collection is introduced with an overview of the history of historical lexicography from the ancient world to the present day with particular emphasis on the major nineteenth century dictionaries of German French English Dutch Swedish and Danish and on their successors In the first paper Javier Mart n Arista describes the present state of and the prospects for the Nerthus lexical database of Old English The next two introduce specialized dictionaries of the language of medieval and early modern texts Fernando Tejedo Herrero TM's comprehensive dictionary of the language of the great thirteenth century lawcode *Siete Partidas* and Juhani Norri TM's *Dictionary of Medical Vocabulary in English 1375 1530* Marijke Mooijaart TM's paper discusses the online integration of the four historical dictionaries which cover Dutch from the earliest times to the twentieth century The next two papers Stefan Dollinger on the *Dictionary of Canadianisms on Historical Principles* and the Bank of Canadian English and Maggie Scott on the *Concise Scots Dictionary* describe projects to revise twentieth century historical dictionaries as the language varieties which they register evolve Finally Jeremy Bergerson TM's paper presents a project for an etymologically rich historical dictionary of Afrikaans An appendix to the volume comprises two previously unpublished short documents by Katherine Barber and John Considine which bear on the history of the *Dictionary of Canadianisms* revision project The contributions to this volume offer a rare set of insights into ongoing

lexicographical work addressing both methodological issues such as inclusion criteria and the balance between diachronic and synchronic coverage and practical issues such as publication media and funding
