Are Sharks Smart?

Read the passage.

When we think of a shark, we think of the harm it can inflict on us with its sharp teeth in one bite. It is a fact that a shark can bite us, but that is rare. A shark also has a big brain. Unlike some fish, sharks are quite smart. With its dark fins, a great white shark is fast. It can dart in the sea to catch a meal and bite hard with lots of sharp teeth. It can smell a meal when it is a yard or miles away. Some think sharks will harm but at times, the shark may just be trying to play. Sharks seem to scare some, but they are quite smart.

Fluency and Reading Comprehension in Typical Readers and Dyslexic Readers: Volume II Manuel Soriano-Ferrer, Simone Aparecida Capellini, Giseli Donadon Germano, 2024-03-06

This Research Topic is the second edition of Fluency and reading comprehension in typical readers and dyslexics readers Volume I This Second Edition Research Topic is focused on the characterization of the reading writing difficulties and their comorbidities and in the analysis of evidence based recommendations for early interventions and treatment of these difficulties within the fields of neuropsychology speech language pathology and educational psychology Reading involves decoding and comprehension components and to become efficient it requires a large number of cognitive and linguistic processes Among those decoding failures can have different origins such as deficits in phonological and or visual processing In addition a child with reading difficulties might also have problems in the acquisition of writing and handwriting performance This is an important point to be discussed as reading and writing both suffer interference from vocabulary acquisition linguistic skills memory skills reading and writing practices and literacy methods These processes become important only when the professional needs to deal with students presenting learning difficulties Difficulty in using the knowledge of conversion rules between grapheme phoneme to word reading construction or phoneme grapheme for writing can be identified in schoolchildren with dyslexia dysgraphia and dysorthography being a specific learning disorder with a neurological etiology In addition there is established evidence of a speech language processing basis students with specific learning disabilities can show a range of cognitive difficulties e.g. rapid naming executive functioning working memory These presented difficulties interfere in their learning process impairing their learning development

Reading in a Second Language William Grabe, 2009

Abstract

The Role of interest in Learning and Development K. Ann Renninger, Suzanne Hidi, Andreas Krapp, Ann

Renninger,2014-02-04 Interest is just emerging as a critical bridge between cognitive and affective issues in both learning and development This developing interest in interest appears to be linked to an increasing concern for studying the individual in context examining affective variables as opposed to purely structural features of text analyzing the interrelationship of cognitive and social development understanding practical applications of theories of motivation and recognizing the importance of developmental psychology for the study of learning This book addresses both how individual interest and interest inherent in stimuli books text toys etc across subjects affect cognitive performance While the book's particular emphasis is on theory driven research each of the contributing authors offers a unique perspective on understanding interest and its effects on learning and development As such each has contributed a chapter in which particular questions in interest research are described and linked to a clearly stated theoretical perspective and recent findings Relevant material from the broader literatures of psychology and education are analyzed in the context of these discussions In addition the introductory and concluding chapters build on the contributions to the volume by providing the basis of a coherent view of interest across genres such as stories and expository text and domains as varied as play reading and mathematics
