The Present Law and Practice Relating to Letters Patent for Inventions (Classic Reprint)  
H. Fletcher Moulton, 2016-12-09 Excerpt from The Present Law and Practice Relating to Letters Patent for Inventions The English Law of Letters Patent is of the greatest interest both from the legal and the commercial point of View It was the forerunner and the model of the Patent Laws of all countries in the past it has greatly helped to build up the commercial supremacy of this Country and on the certainty and justness of this law and its administration depends to day the willingness of capital to assist in developing new inventions But the subject is one whose treatment presents great difficulties to the author since the majority of the reported decisions really turn on questions of fact The Courts have quite properly realised this and the practice of quoting numerous authorities on such questions as subject matter and infringement has greatly decreased Nevertheless the citation of a really apposite decision is often of the greatest value and the just appreciation of prior decisions is also of great assistance to those who have to advise on questions relating to Letters Patent I have therefore attempted to give in a digested and classified form the decisive points in all such cases as may be likely to be of assistance for either of these purposes This work presents the law and practice in regard to Letters Patent as it stood at the end of 1912 Although the basic principles of this law have remained unchanged recent legislation has greatly affected the practice The Patents Act of 1907 has also introduced many fresh problems for the practitioner and some of the most important of these as for example those referring to restrictive conditions in licences a point to which public attention has been recently called have not yet had the benefit of judicial elucidation In such cases the legal and practical applications of the new provisions have been fully discussed with a View to assisting those who may have to advise thereon About the Publisher Forgotten

render the work strictly authoritative and practical he has adopted almost exclusively the conclusions of those whose opinions have been dignified with the mantle of official authority The work is the result of an endeavor to compile from various sources some of which are not easily accessible reliable and practical information which the author has found to be indispensable in the course of his own professional practice and which he believes will be useful to others Although intended to convey practical information to inventors patentees manufacturers and other who have occasion to inform themselves particularly concerning patent matters it is believed that the work will be found useful to members of the legal profession generally since it sets forth the state of the law resulting from decisions more recent than those of any other work published up to the present time and contains the exact text of the late act of Congress by which the entire legislation in respect to patents and copy About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
