Washington all while laundering the reputations of the most heinous repressive regimes in the process These lobbyists include figures like Ivy Lee the inventor of the public relations industry a man who whitewashed Mussolini opened doors to the Soviets and advised the Nazis on how to sway American audiences They include people like Paul Manafort who invented lobbying as we know it and who then took his talents to autocrats from Ukraine to the Philippines and then back to the White House And they now include an increasing number of Americans elsewhere in law firms and consultancies among PR specialists and former lawmakers and even within think tanks and universities Many of these lobbyists have transformed into proxies for dictators and strongmen wherever they can be found And for years they've escaped scrutiny In Foreign Agents Casey Michel shines a light on these foreign lobbyists and all the damage and devastation they have caused in Washington and elsewhere From Moscow to Beijing from far right nationalists to far left communists from anti American autocrats to pro Western authoritarians these foreign lobbyists have helped any illiberal anti democratic government they can find And after decades of success in installing dictator after dictator and in tilting American policy in the process some of these lobbyists have now begun trying to end America's democratic experiment once and for all
