2025 TESLA MODEL Y JUNIPER REVIEW JACKSON. Z. SCOTT, 2025 Foreign Direct Investment in Latin America and the Caribbean 2018 United Nations, 2019-01-30 This publication sets out and analyses the main foreign direct investment FDI trends in the countries of Latin America and the Caribbean In 2017 certain trends that had already emerged in the global economic landscape became more established In particular announcements of potential restrictions on trade and pressures to relocate production to developed countries were confirmed At the same time China has taken steps to restrict outflows of foreign direct investment FDI in order to align these flows with its strategic plan Adding to these factors is the expansion of digital technologies whose international expansion requires smaller investments in tangible assets Firms in these areas are heavily concentrated in the United States and China which reduces the need for cross border mergers and acquisitions

analyses the main foreign direct investment FDI trends in the countries of Latin America and the Caribbean In the region FDI inflows were up by 13 2% year on year for the first time in five years at US 184 287 billion This performance is explained by higher flows into just a few countries however mainly Brazil and Mexico Moreover it does not reflect equity investment but higher inflows in the form of intercompany loans and to a lesser extent reinvestment of earnings Manufactures and services were the sectors receiving most equity although there was a slight rise in investment in natural resource sectors compared with 2018 Light-duty Vehicle Attribute Projections (years 2015-2030) Eleftheria Kontou (Ph.D.), Marc W.
