Understanding the Hadith Ram Swarup,2002-09 Noted Indian writer and polymath Ram Swarup explores the meaning of Islam through the words of the Sahih Muslim considered by Muslims to be one of the most authoritative of the collections of traditions Arabic Hadith about the life of the Prophet Muhammad Like the Koran these traditions are believed to be divinely revealed by Allah and they complement the verses of the Koran in many cases expanding upon them and explaining the context of their revelation As Swarup notes in his introduction to Muslims the Hadith literature represents the Koran in action stories of revelation made concrete in the life of the Prophet Among the orthodox they are considered as sacred as the Koran itself Swarup is plainly skeptical of the claim that the Hadith literature is divinely inspired In the introduction he says The Prophet is caught as it were in the ordinary acts of his life sleeping eating mating praying hating dispensing justice planning expeditions and revenge against his enemies The picture that emerges is hardly flattering One is left to wonder how the believers generation after generation could have found this story so inspiring The answer is that the believers are conditioned to look at the whole thing through the eyes of faith To them morality derives from the Prophet s actions his actions determine and define morality The Sahih Muslim a massive work consisting of 7 190 traditions divided into 1 243 chapters is hardly accessible to the average reader so Swarup quotes representative selections that touch upon the main tenets of Islam faith purification prayer fasting pilgrimage marriage and divorce crime and punishment religious wars jihad paradise hell repentance and many other features of the religion To non Muslims this work provides many insights into the mindset of the average Muslim who is raised on these traditions about Muhammad It also underscores the gulf that exists between the sanctum of orthodox Islam and an increasingly secularized Westernized world Visual Culture in the Modern Middle East Christiane Gruber,Sune Haugbolle,2013-07-17 A collection of essays examining the role and power of images from a wide variety of media in today s Middle Eastern societies This timely book examines the power and role of the image in modern Middle Eastern societies The essays explore the role and function of image making to highlight the ways in which the images speak and what visual languages mean for the construction of Islamic subjectivities the distribution of power and the formation of identity and belonging Visual Culture in the Modern Middle East addresses aspects of the visual in the Islamic world including the presentation of Islam on television on the internet and other digital media in banners posters murals and graffiti and in the satirical press cartoons and children s books This volume takes a new approach to the subject

and will be an important contribution to our knowledge in this area It is comprehensive and well structured with fascinating material and analysis Peter Chelkowski New York University An innovative volume analyzing and instantiating the visual culture of a variety of Muslim societies which constitutes a substantially new object of study in the regional literature and one that creates productive links with history anthropology political science art history media studies and urban studies as well as area studies and Islamic studies Walter Armbrust University of Oxford **Daily Report** ,1983-12 The Gambia & Senegal ,2006 **Culturgrams** ,1996 An introduction to the history the people customs and lifestyle and the political and economic structures of the countries in the world
