Muslim Brotherhood Arab Spring Future:

The Muslim Brotherhood Beverley Milton-Edwards, 2015-12-14 The Muslim Brotherhood is the most significant and enduring Sunni Islamist organization of the contemporary era Its roots lie in the Middle East but it has grown into both a local and global movement with its well placed branches reacting effectively to take the opportunities for power and electoral competition offered by the Arab Spring Regarded by some as a force of moderation among Islamists and by others as a fa ade hiding a terrorist fundamentalist threat the potential influence of the Muslim Brotherhood on Middle Eastern politics remains ambiguous The Muslim Brotherhood The Arab Spring and its Future Face provides an essential insight into the organisation with chapters devoted to specific cases where the Brotherhood has important impacts on society the state and politics Key themes associated with the Brotherhood such as democracy equality pan Islamism radicalism reform the Palestine issue and gender are assessed to reveal an evolutionary trend within the movement since its founding in Egypt in 1928 to its manifestation as the largest Sunni Islamist movement in the Middle East in the 21st century The book addresses the possible future of the Muslim Brotherhood whether it can surprise sceptics and effectively accommodate democracy and secular trends and how its ascension to power through the ballot box might influence Western policy debates on their engagement with this manifestation of political Islam Drawing on a wide range of sources this book presents a comprehensive study of a newly resurgent movement and is a valuable resource for students scholars and policy makers focused on Middle Eastern Politics The Muslim Brotherhood After the Arab Spring Lorenzo Vidino, Centre for European Studies (Brussels, Belgium), 2013

American Journal of Islamic Social Sciences 36-3 Robert Hefner, James Edmonds, Meryem Zaman, Omar Anchassi, Imad Jafar, Muneeza Rizvi, Faraz Shaikh, Nicole Correr, Mohammad Dawood Sofi, Gowhar Quadir Wani, 2019-07-09 Professor Timothy Daniels and his colleagues Meryem Zaman Robert Hefner and James Edmonds chose AJISS for the publication of their important and timely research This issue showcases leading and emerging anthropologists who have come together to address the layers of misrepresentation and marginalization that various Muslim groups experience Each article has been independently reviewed and are ably introduced by Professor Timothy Daniels Finally AJISS Editorial Team takes this opportunity to invite scholars of Islam as well as those of Muslim societies focused on Islamic thought and Muslim practice to consider submitting their collected papers to AJISS for special issues **Political, Social,**

Religious and Economic Challenges in the Middle East and North Africa Flavia Cortelezzi, Alessandro Ferrari, Jinan Limam, 2025-12-23 A decade after the Arab springs the book aims to provide a concise perspective on the political social and economic challenges of the southern shore of the Mediterranean a decade after the Arab springs The volume both from a sociolegal and economic perspective aims to offer readers an analytical and up to date picture of the transformations in several particularly significant countries in the area under consideration The volume thus covers the entire north African and near Eastern coastal belt from Morocco to Lebanon and extends its focus into the Gulf In particular keeping in the

background the Agenda 2020 2030 the book explores on the one side the role of the religious factor in the transformation of the constitutional orders and on the other the perspectives of economies of MENA region in the decade that followed the Arab springs In a different way the Arab springs were characterized from a constitutional point of view by the attempt at a different relationship between political power and religion This new arrangement particularly evident in the Tunisian Constitution but not absent in other contemporary experiences was associated with favorable and expanding economic prospects The book questions the relevance of this reading and how economic and political factors affected subsequent transformations The situation of each country is individual in that it differs depending on many factors starting with historical and geographical factors that have profoundly influenced social political and economic structures What is to be expected for the MENA region in the light of Agenda 2020 2030 Which are the major opportunities for growth and reform and which are the main risks By adopting a multidisciplinary approach this book will offer a comprehensive picture of the main political and economic challenges for MENA region The Arab Spring and Arab Thaw John Davis,2016-04-01 What were the unifying principles or strategies that governed the protest movements that swept the Middle East and North Africa in the spring of 2011 Who were the protestors and how did the different authoritarian regimes respond to them How did regional and international institutions react to a region in turmoil The Arab Spring and Arab Thaw Unfinished Revolutions and the Quest for Democracy addresses these questions by examining a range of successful and unsuccessful protest strategies and counter revolutionary tactics employed by protestors and autocratic regimes Contributors explore the reactions of the USA EU and Arab League to events in the region and provide insight as to the gendered dimensions of the struggle along with the ethnic and tribal divisions that continue to impact the post revolt period By addressing these critical queries the book demonstrate how the Arab Spring has evolved into a protracted Arab Thaw that continues to profoundly affect regional and international politics *Islamism, Arab Spring, and the Future of Democracy* Leonid Grinin,Andrey Korotayev,Arno Tausch,2018-09-26 This book provides an in depth analysis of public opinion patterns among Muslims particularly in the Arab world On the basis of data from the World Values Survey the Arab Barometer Project and the Arab Opinion Index it compares the dynamics of Muslim opinion structures with global publics and arrives at social scientific predictions of value changes in the region Using country factor scores from a variety of surveys it also develops composite indices of support for democracy and a liberal society on a global level and in the Muslim world and analyzes a multivariate model of opinion structures in the Arab world based on over 40 variables from 12 countries in the Arab League and covering 67% of the total population of the Arab countries While being optimistic about the general long term trend towards democracy and the resilience of Arab and Muslim civil society to Islamism the book also highlights anti Semitic trends in the region and discusses them in the larger context of xenophobia in traditional societies In light of the current global confrontation with radical Islamism this book provides vital material for policy planners academics and think tanks alike Coups and Revolutions Amy Austin Holmes,2019-08-01 In

2011 Egypt witnessed more protests than any other country in the world Counter to the received narrative Amy Austin Holmes argues that the ousting of Mubarak in 2011 did not represent the culmination of a revolution or the beginning of a transition period but rather the beginning of a revolutionary process that would unfold in three waves followed by two waves of counterrevolution This book offers the first analysis of both the revolution and counterrevolution in Egypt from January 2011 until June 2018 The period of revolutionary upheaval played out in three uprisings against three distinct forms of authoritarian rule the Mubarak regime and the police state that protected it the unelected military junta known as the Supreme Council of Armed Forces and the religious authoritarianism of the Muslim Brotherhood The counterrevolution occurred over two periods the first under Adly Mansour as interim president and the second after El Sisi was elected president While the regime imprisoned or killed the leadership of the Muslim Brotherhood and many secular activists during the first wave of the counterrevolution it turned against civil society at large during the second NGOs charities media academia and minority groups In addition to providing new and unprecedented empirical data Coups and Revolutions makes two theoretical contributions First it presents a new framework for analyzing the state apparatus in Egypt based on four pillars of regime support that can either prop up or press upon whoever is in power These are the Egyptian military the business elite the United States and the multi headed opposition Secondly the book brings together the literature on bottom up revolutionary movements and top down military coups and it introduces the concept of a coup from below in contrast to the revolution from above that took place under Gamal Abdel Nasser
