Thorough treatment of issues in discourse and context dependent interpretation is also provided. In addition this title offers coverage of two entirely new subject areas. First the text features a new chapter on statistically based methods using large corpora. Second it includes an appendix on speech recognition and spoken language understanding. Also the information on semantics that was covered in the first edition has been largely expanded in this edition to include an emphasis on compositional interpretation. 0805303340B04062001 *Natural Language Processing in Action, Second Edition* Hobson Lane, Maria Dyshel, 2025-02-25 Develop your NLP skills from scratch with an open source toolbox of Python packages Transformers Hugging Face vector databases and your own Large Language Models.
