*Computer Science (9-1) J277* S. Robson, Pm Heathcote, 2020-03-31 The aim of this book is to provide a comprehensive and accessible text for students covering Papers 1 and 2 in the latest OCR GCSE J277 Computer Science specification. It will be invaluable as a course text for students throughout the course. It is divided into eight sections, each broken down into manageable chapters of roughly one lesson. Sections 6 and 7 of the textbook cover algorithms and programming fundamentals with a theoretical approach to provide students with experience of writing tracing and debugging pseudocode solutions without the aid of a computer. These sections would complement practical programming experience. Each of the eight sections covers one of the major topics in this course, and each subtopic contains sample examination questions from past papers which can be set as homework.

**OCR** H. A. Billingham, 2019-08-22 Want to colour in your way to a successful GCSE? This interactive revision guide is the perfect way to achieve structured and easy to access revision notes for Grade 9-1 OCR GCSE Computer Science. Instead of relying on someone else to write the notes for you, doodle notes draw on years of educational research that show students who write their own notes progress faster, retain more information, and feel less stressed during revision than those that simply read a revision guide. Every topic is supported by a knowledge organiser set of notes followed by structured doodle pages to help students to write out their revision notes independently whilst giving the added benefit of ensuring all areas are covered through scaffolded pages. Throughout the notes, useful tips and hints are added to remove the fear of the blank page without doing the work for them. This doodle notes book can be combined with the online revision guide and activities on the TeachAllAboutIt website and contains an array of QR codes to further information online.
