Electronic Nose Technologies and Advances in Machine Olfaction Albastaki, Yousif Abdullatif, Albalooshi, Fatema, 2018-04-13 The design and study of materials is a pivotal component to new discoveries in the various fields of science and technology By better understanding the components and structures of materials researchers can increase its applications across different industries Electronic Nose Technologies and Advances in Machine Olfaction is an academic scholarly resource that examines the emerging applications of odor sensing devices as well as a better understanding of the designing process with the aid of neural networks and various other technologies Featuring coverage on a broad range of topics including food spoilage detection chemical sensing and olfactometer this book is a vital resource for engineers academicians researchers students and practitioners seeking current research on the advancements in applications of odor sensing devices *Essentials of Machine Olfaction and Taste* Takamichi Nakamoto, 2016-04-18 Essentials of Machine Olfaction and Taste This book provides a valuable information source for olfaction and taste which includes a comprehensive and timely overview of the current state of knowledge of use for olfaction and taste machines Presents original latest research in the field with an emphasis on the recent development of human interfacing Covers the full range of artificial chemical senses including olfaction and taste from basic through to advanced level Timely project in that mobile robots olfactory displays and odour recorders are currently under research driven by commercial demand

TENCON 2004, 2004 **Handbook of Machine Olfaction** Tim C. Pearce, 2003 Electronic noses that means instruments which mimic the sense of smell They are very useful for a remarkably variety of applications e g in food and pharmaceutical industry in environmental control or clinical diagnostics The book covers biological and technical fundamentals up to date research contributed by renowned international scientists as well as application oriented news from successful E nose manufacturers It is a unique standard work for scientists in research and development and for users of electronic noses Olfaction and Electronic Nose Matteo Pardo, Giorgio Sberveglieri, 2009-06-09 ISOEN addresses research in the fields of gas sensors and artificial olfactory systems In this edition we broadened the participation spectrum to all kinds of analytical instrumentation for odor measurement and to biological olfaction We also had a strong involvement in industry The audience comprises materials scientists chemists physicists engineers biologists computer scientists and application specialists e g food medical environmental security
