**Digital Culture Annual Report.** Javier Celaya, Jovanka Adzic, Luis Miguel Cencerrado, Pablo Gervás, José Manuel Menéndez, Elena Neira, Emma Roderó, Nuria Rodríguez, Mario Tascón, Elisa Yuste, 2018-04-17 The AC E Digital Culture Annual Report is a publication which looks at the impact of the internet on our society Its aim is to delve into the transformation happening within the arts and culture sector and to help entities and professionals create experiences that are in line with the expectations of 21st century consumers The first part of the 2018 edition brings together texts from professionals in the arts and culture sector as well as from experts in the digital field in order to get up to speed on important issues regarding main trends Every year the second part of the edition Focus looks at the changes happening among readers and reading material The aim is to outline a map of digital reading material Mario Tascón takes a close look at our most connected cities that have been created by the latest interconnected devices and the Internet of Things He then analyses the role that cultural spaces are destined to perform within these cities Next José Manuel Menéndez and David Jimeno Bermejo describe the latest challenges faced by immersive technologies and its growing role within the ecosystem of digital content The Experimental UNIT of the University of Valencia reviews its experience with the use of digital design and analyses how the latest possibilities of mobile devices can offer resources for the construction of the museography debate Jovanka Adzic discusses a burning issue In her analysis on the evolution of social networks and their continuously expanding influence on our way of life she also takes a look at the problem of fake news on the internet Jovanka goes on to reflect on the competitive advantage of FANG obtained through large volumes of social data within an economy driven by Big Data Elena Neira takes a look at the impact of consumption of on screen culture and the business models that are based on subscriptions the so called Netflix model And Emma Roderó in line with this year's central theme of Focus examines the theme of orality and analyses the growing influence of sound and voice in the digital era Pablo Gervás builds on the concept of computational creativity and its impact on literary creation We have a total of seven articles by renowned experts to help us learn and reflect on the changes

affecting our society as a whole and to give us a glimpse of new opportunities for the sector of arts and culture Every year the second part of the edition Focus reflects and explains through the use of best practice examples both nationally and internationally the biggest changes happening among readers and reading material in the digital era The main objective of this section is to present a unified view on the matter Authors Luis Miguel Cencerrado Elisa Yuste and Javier Celaya outlines a map to help us navigate with ease through all types of texts highlighting the role of the reader in the current context of hybrid literature paper digital audio visual transmedia etc which is favoured by the digital era we live in The annual review is published in both Spanish and English in PDF and EPUB format and can be downloaded for free under the licence of Creative Commons The publication can be downloaded on the Acci n Cultural Espa ola website in the section digital publications A copy can also be obtained from major distributors of national and international digital books *Searcher* ,2008 *Digital Libraries* 98 Association for Computing Machinery,1998 Library Closures Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee,2012-11-06 Recent campaigns against the closure of local libraries have highlighted the strong attachment that many people feel to their library services However much of the focus of the campaigns has been on library branches rather than the broader question of the preservation and possible enhancement of the library service Reductions in opening hours and the loss of professional staff may damage the service more than the closure of particular buildings The provision of a library service is a statutory duty but a number of councils have drawn up plans that fail to comply with the requirement to provide a comprehensive and efficient service A full assessment of the needs of the local population for the services is key Guidance on how to assess local needs does exist but more must be done to disseminate it Although the future of public libraries may be uncertain there is opportunity for reassessment of their roles and how they are organised The Committee saw many examples of innovative thinking about what libraries can offer to the local population and a number of models of how those services might be provided Councils which have transferred the running of libraries to community volunteers must continue to provide support otherwise failure may be viewed as closures by stealth The Committee looks forward to the promised report by the end of 2014 on the cumulative effect on library services of the cuts in local authority provision and the promotion of alternatives such as transfers to community volunteers Library & Information Science Abstracts ,2008 **Online Information ...** ,2000 The World Almanac and Book of Facts 2009 C.
