The last twenty or so years have seen a phenomenal expansion in the variety of forms of creative and narrative audiovisual expression The increasing role of relatively recent developments such as the internet mobile telephony and computer gaming which complement the narrative representation of more traditional media seems to have acted as a catalyst to unfreeze the standard types of story form that had been appearing on screens for over a hundred years Storytelling has taken on new forms in the physical formats of the narrative material the place or device where it is experienced and the way it is accessed by the viewer in particular a viewer who might now also be a creator modifier or active participant in the represented audiovisual experience Including texts by leading media scholars Erkki Huhtamo and Ryszard W Kluszczynski this book offers both historical and contemporary analyses of a variety of these expanding practices in audiovisual narrative Chapters discuss mobile and locative and hybrid narrative media the connection between computer gaming and more traditional forms of storytelling and game playing the use of computational algorithms to organise and access narrative content and explain how the traditional documentary film form is being transformed by the potential of the audience to participate in or change the form of a non fictional narrative Historically the work of Luc Courchesne and Rad z in era is analysed as is the media archaeological context of interactivity pushing buttons and group experiences Narrative forms will undoubtedly continue

their process of expansion and evolution such that one can never truly represent the state of the art of current practice in audiovisual digital media Nevertheless the articles presented here offer useful source material to inform scholars and practitioners from a variety of related fields about certain historical cultural and theoretical aspects of the evolution of the narrative form in the digital age Popular Science ,1944-07 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Small Press Record of Books in Print** Len Fulton,1994 **Paperbound Books in Print** ,1992 American Bookseller ,1993 **ArtsAmerica Fine Art Film & Video Source Book** ,1987 **Museum** ,1987
