Pasts Beyond Memory Tony Bennett, 2004 Contributing to current debates on relationships between culture and the social and the changing practices of modern museums this important new work explores how evolutionary museums developed in the USA UK and Australia in the late 19th century **Technological Forms and Ecological**

Communication Piyush Mathur, 2017-09-25 Investigating the phenomena of technology science technique and mass communication Piyush Mathur contends that the enterprise of science communication may be misleading vis vis technology if in part because it frequently coextends with a flawed but dominant notion of science that presumptuously implicates technology anyway Grappling with what authentically constitutes science and the prospective effects of its realization on a global future of mass communication Mathur explores how various technological forms play specifically into ecologically sensitive mass communication The result is an eco communicative theory of technology that includes its classification based upon a set of qualitative principles and a profile of the notion of development On the whole though Technological Forms and Ecological Communication A Theoretical Heuristic brings the fields of philosophy and history of science philosophy and sociology of technology communication studies and development studies into conversation with one another **Intellectual**

Walkowitz, Lisa Maya Knauer, 2004-11-30 Memory and the Impact of Political Transformation in Public Space explores the effects of major upheavals wars decolonization and other social and economic changes on the ways in which public histories are presented around the world Examining issues related to public memory in twelve countries the histories collected here cut across political cultural and geographic divisions At the same time by revealing recurring themes and concerns they show how basic issues of history and memory transcend specific

sites and moments in time A number of the essays look at contests over public memory following two major political transformations the wave of liberation from colonial rule in much of Africa Asia and Central and South America during the second half of the twentieth century and the reorganization of Eastern Europe and the former Soviet bloc beginning in the late 1980s This collection expands the scope of what is considered public history by pointing to silences and absences that are as telling as museums and memorials Contributors remind us that for every monument that is erected others including one celebrating Sri Lanka s independence and another honoring the Unknown Russian Soldier of World War II remain on the drawing board While some sites seem woefully underserved by a lack of public memorials as do post Pinochet Chile and post civil war El Salvador others run the risk of diluting meaning through overexposure as may be happening with Israel s Masada Essayists examine public history as it is conveyed not only in marble and stone but also through cityscapes and performances such as popular songs and parades Contributors James Carter John Czaplicka Kanishka Goonewardena Lisa Maya Knauer Anna Krylova Teresa Meade Bill Nasson Mary Nolan Cynthia Paces Andrew Ross Daniel Seltz T M Scruggs Irina Carlota Silber Daniel J Walkowitz Yael Zerubavel
