Paul Watzlawick Jan Fredenborg, 1990 **Pragmatics of Human Communication** Paul Watzlawick, Janet Beavin Bavelas, Don D. Jackson, 2014-01-09 The properties and function of human communication Called one of the best books ever about human communication and a perennial bestseller Pragmatics of Human Communication has formed the foundation of much contemporary research into interpersonal communication in addition to laying the groundwork for context based approaches to psychotherapy The authors present the simple but radical idea that problems in life often arise from issues of communication rather than from deep psychological disorders reinforcing their conceptual explorations with case studies and well known literary examples Written with humor and for a variety of readers this book identifies simple properties and axioms of human communication and demonstrates how all communications are actually a function of their contexts Topics covered in this wide ranging book include the origins of communication the idea that all behavior is communication meta communication the properties of an open system the family as a system of communication the nature of paradox in psychotherapy existentialism and human communication [Change; Principles of Problem Formation and Problem Resolution](#) Paul Watzlawick, John H. Weakland, Richard Fisch, 1974 This classic book available in paperback for the very first time explores why some people can successfully change their lives and others cannot Here famed psychologist Paul Watzlawick presents what is still often perceived as a radical idea that the solutions to our problems are inherently embedded in the problems themselves Tackling the age old questions surrounding persistence and change the book asks why problems arise and are perpetuated in some instances but easily resolved in others Incorporating ideas about human communication marital and family therapy the therapeutic effects of paradoxes and of action oriented techniques of problem resolution Change draws much from the field of psychotherapy
