If you have been using a cell phone long enough, you probably remember the days of flip phones that slipped into your pocket. They were small, practical, and they were used to actually call people. Then smartphones came along and suddenly calling people didn't matter; you could surf the Internet, take pictures, text, check social media, and so much more. Long as we've come, we seem to be back to square one: the flip phone has officially made a comeback. The Samsung Galaxy Z Flip3 is truly a work of innovation that brings the portability that we loved about older phones with the power that we can't live without. The fortunate thing about the Galaxy Z Flip is the software; it's not that unlike other Samsung devices or even Android devices, so if you've used an Android device in the past, you'll get the hang of it pretty quick. This guide will help new and old users alike learn how to take advantage of all the best features on the Galaxy Z Flip3. These features include: Setting up your phone, Using the foldable screen, Making calls, Using Samsung SmartTag, Installing apps, Using the camera, Surfing the Internet, Changing system settings, And much more. Are you ready to get the most out of the Samsung Galaxy Z Flip3? Let's get started.
