Naval Institute Guide to Combat Fleets of the World Eric Wertheim,2007 Internationally acknowledged as the best one volume reference to the world's naval and para-naval forces this popular Naval Institute guide is both comprehensive and affordable Updated biennially since 1976 it has come to be relied on for all inclusive accurate and up to date data on the ships navies coast guards and naval aviation arms of more than 180 countries and territories Large fleets and small maritime forces get equally thorough treatment as evidenced in this new edition which highlights major and even minor developments that could have an impact on the world scene A thorough indexing of material and a logical ship typing system make the book easy to use and allow for quick comparisons between fleets The guide continues to present timely authoritative information supported by more than four thousand illustrations from correspondents throughout the world From giant aircraft carriers and ballistic missile submarines to tugboats and launches the characteristics and capabilities of ships large and small are reliably recorded Complete descriptions of naval aircraft weapons weapon systems and sensors are also provided along with useful commentary on organization personnel strengths and bases

US Navy Cold War Guided Missile Cruisers

Mark Stille,2020-02-20 Faced with an increasingly formidable anti ship cruise missile threat from the Soviet Union in the early days of the Cold War and with the recent memory of the kamikaze threat from World War II the USN placed a great priority on developing air defence cruise missiles and getting them to sea to protect the fleet The first of these missiles were sizable necessitating large ships to carry them and their sensors which resulted in the conversion of a mix of heavy and light cruisers These ships tasked with protecting carrier groups and acting as flagships entered service from 1955 and served until 1980 The cruisers served in the front lines of the Cold War and many saw combat service engaging in surface actions from Vietnam to the Persian Gulf Complementing the conventionally powered missile cruisers was a much smaller number of expensive nuclear powered cruisers including the Long Beach the USN's largest ever missile cruiser Until replaced by the Ticonderoga and Burke classes of Aegis ships the USN's 38 missile cruisers were the most capable and important surface combatants in the fleet and served all over the globe during the Cold War Using specially commissioned artwork and meticulous research this illustrated title explores the story of these cruisers in unparalleled detail revealing the history behind their development and employment
