Designing Hybrid Spaces Laura Galluzzo, Salvatore Di Dio, 2025-09-19 **Making Games for Impact** Kurt Squire, 2021-10-26

Designing games for learning case studies show how to incorporate impact goals build a team and work with experts to create an effective game Digital games for learning are now commonplace used in settings that range from K 12 education to advanced medical training In this book Kurt Squire examines the ways that games make an impact on learning investigating how designers and developers incorporate authentic social impact goals build a team and work with experts in order to make games that are effective and marketable Because there is no one design process for making games for impact specific processes arise in response to local needs and conditions Squire presents a series of case studies that range from a small playable game created by a few programmers and an artist to a multimillion dollar project with funders outside experts and external constraints These cases drawn from the Games Learning Society Center at the University of Wisconsin Madison show designers tackling such key issues as choosing platforms using data analytics to guide development and designing for new markets Although not a how to guide the book offers developers researchers and students real world lessons in greenlighting a project scaling up design teams game based assessment and more The final chapter examines the commercial development of an impact game in detail describing the creation of an astronomy game At Play in the Cosmos that ships with an introductory college textbook

The Metaverse Matthew Ball, 2024-07-23 From the leading theorist of the Metaverse comes the eagerly anticipated revised and updated account of the next internet what the Metaverse is what it will take to build it and what it means for all of us A Hudson Booksellers Amazon Guardian Financial Times Economist and ByteDance Toutiao Best Book of the Year In this substantially revised and updated edition of his internationally best selling book pioneering theorist and entrepreneur Matthew Ball goes beyond the hype cycle to present a definitive account of the future of the internet The Metaverse according to Ball s industry shaping definition is a persistent and interconnected network of 3D virtual worlds that will eventually serve as the gateway to most online experiences and underpin much of the physical world As Ball recounts the Metaverse is a thirty year old term and the core ideas and technologies behind it have been in development for nearly a century Only recently however did this fantastical concept begin to leap from the pages of science fiction and depths of national research labs to the forefront of consumer technology industrial engineering healthcare education dating and more From the history of video games and virtual reality to proto metaverses such as Second Life Fortnite and Roblox to Generative AI and the groundbreaking films and television series of the Walt Disney Company Ball points out that the Metaverse is already emerging around us and doesn t require a headset Still there are many breakthroughs required to fully realize the Metaverse and he describes each in approachable but expert detail Ball also lays out how governmental policy the philosophy of Big Tech leaders artificial general intelligence economics and human rights will shape the development of the Metaverse Famous for his ability to bring clarity to complex and misunderstood topics Ball

demonstrates that the race to build the Metaverse also known as the spatial or immersive internet is only accelerating The Metaverse will endure as an indispensable guide for enthusiasts tech aficionados and anyone curious about the profound transformations underway in our increasingly interconnected world **Human-Centered Design and User Experience**
