Fashion Trends and Forecasting Eunsuk Hur, Caroline Hemingray, Stephen Westland, 2025-03-17 Fashion Trends and Forecasting explores how designers merchandisers buyers marketers and strategists use fashion trend forecasting to predict upcoming trends and understand past or current ones. It explains the importance of trend forecasting for businesses and how technology such as artificial intelligence can help to advance it for the future. Addressing both macro and micro trends including fashion styles, textiles and colour trends as well as the impact of technology such as AI and the metaverse, the book offers guidance on how fashion students can address fast changing consumer needs and demands and identify wider shifts in the cultural, environmental, political and technological worlds. Case studies from globally recognised organisations feature in every chapter, highlighting and contextualising theory for students. Discussion questions, further reading and exercises help facilitate class discussion and deeper understanding. Designed to equip the reader with Fashion Forecasting tools, methods and principles in an accessible and clear way, this text is recommended and core reading for students studying fashion forecasting, fashion buying and fashion marketing. Supplementary online resources can be found at www.routledge.com/9781032541860 and include a short instructor's manual of points to be used for seminar discussions and chapter by chapter PowerPoint slides for instructors.

Creating Responsible and Inclusive Fashion Brand Narratives Emily Huggard, 2025-09-05 This book introduces the theories and frameworks necessary to drive meaningful social change in fashion brand communication, illustrating their applications with examples of brands that prioritize social justice, decolonization and environmental sustainability in their practices and communication strategies. Drawing on social consumer and cultural theories such as Indigenous dress theory, circularity, fat liberation and social reproduction, this book encourages students to think critically about brand communication in ways that are relevant, impactful and aimed at transforming discourse and ideologies rather than focusing solely on products. Through case studies ranging from Polo Ralph Lauren's collaboration with Indigenous weaver Naomi Glasses to material regeneration at Veja, the authors demonstrate how these narratives can be applied in practice while raising ethical questions about transparency and authenticity in fashion brand messaging. Readers will not only gain an understanding of why more inclusive and equitable brand narratives are essential but also develop the knowledge and critical thinking skills needed to analyze, interpret and contribute to the ongoing transformation of fashion brand storytelling. *Creating Responsible and Inclusive Brand Narratives* will be of interest to advanced students of Fashion Communication, Marketing and Brand Management.
